growing, bearing, and taste tempting features

No other everbearer can equal "Brilliant's" amazing production record — 2,000 quarts more per acre than any other variety tested! It is justly acclaimed the "World's New Everbearing Champion."

MATCHLESS QUALITY and FLAVOR

Never have we seen a Strawberry that charmed us so with its live glistening beauty! "Brilliant" berries are so bright and appetizing you can

almost taste them before they reach your lips. The flavor is an outstanding accomplishment — rich and tangy but lacking in acidity.

RIPE BERRIES IN 6 WEEKS

"Brilliant" is the quickest berry maker you ever saw! The plants are so thrifty and vigorous the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out. Give "Brilliant" a trial.

NURSERIES, Inc. Stevensville, Michigan

Premier EARLY

The Dependable Strawberry

265. The best selling Strawberry from coast to coast. It is one of, if not the earliest berry to bear, yet resisting frost. The picking is best before other commercial varieties come into bearing, thus bringing "first-of-the-season" high prices. Plants are thrifty, vigorous growers and make a good fruiting row. The foliage is tough and unusually healthy. Blooms are covered and protected from frost by the foliage. Premier starts to ripen early and continues bearing heavily for a long period.

Premier

Berries are uniformly large; long, pointed in shape and bright scarlet-red; have a super-delicious flavor. Its deep heavy roots enable Premier to withstand dry weather and mature full size crops when many other varieties are a failure. Can be trucked long distances and still look fresh, bright and very appetizing. Wonderful for fancy dessert and canning. Perfectly self-pollenizing; drought-resistant. **Set plants in April and May. They will bear next year.**

Kardinal King

260. An outstanding variety that is sweeping the country. Kardinal King has created something of a sensation with its record breaking crops. The best late Strawberry. It starts to bear after Premier and continues through the late berry season, prolonging your berry profits. The plants grow large, making wide fruiting rows and producing record breaking crops. The fruits are large, solid red, luscious and full of good flavor. A full-flavored, richly sweet and juicy berry favored for table use, jams, jellies, and freezing. Also praised for its high shipping quality. They retain their quality long after being picked and may be shipped long distances without harm. Thrifty, strong, hardy grower. The foliage is dark and is free from leaf troubles; will thrive and produce a crop of berries even on rather poor soil. Give Kardinal King a trial and be convinced of its superior qualities as the perfect variety both for home and commercial use.

Dunlap Old Favorite

245. Dependable midseason to late Strawberry which stands coldest and warmest climates and poorest soils. Plants are medium in size, long rooted, extremely vigorous, free from disease, and will make more plants than any other variety grown in the midwest. Plants make a solid fruiting row, and bear medium size, very dark red berries that are honey-sweet. Richest flavored in the Strawberry family. Favored for preserving, jam, jelly, etc. Self-pollenizing. Very productive.

Now! For the Very First Time You Can Have MICHIGAN CERTIFIED VIRUS FREE Strawberry Plants

How Virus Free Plants are Propagated

Recent research by the U.S.D.A. paved the way for virus identification. Michigan State University began a similar program in 1950. The first problem was to isolate by grafting. This involved hundreds of plant samples before completely healthy plants were found. These plants were then propagated in strict isolation at the university farms. Some of the resulting stock was used for comparison tests between diseased and virus free plants for runner and yield production.

It was soon evident that virus free stock of the several varieties under test produced on the average three times as many runner plants, 30 to 50 per cent increase in yields, and a higher percentage of vigorous plants at the end of the season.

The next task was to transform these benefits to the strawberry grower. The logical step would be to release such stock to Michigan nurserymen. However, several factors had to be reckoned with; the ground on which these outstanding plants were to be set should have a past history of root disease freedom and be fumigated for nematode control. Cultural practices of weed control and adequate moisture through irrigation were to be of the highest degree. The final step was 1500 feet isolation of this stock from either regular or wild strawberry plants because the various virus disorders can be spread to such healthy stock by the strawberry leaf aphid. In addition to further prevent any possible virus spread the nurserymen were further required to either spray or dust at 10 day intervals with the aphid killer insecticide, parathion.

In order to further check on the spread of virus into these isolated plantings, the virus indicator plant, *Fragaria vesca*, was planted at intervals in the strawberry fields. These plants and the entire planting were checked at intervals by State Inspectors for virus and any other disease that might occur.

The factors of soil fumigation, extensive cultural practices, insecticide program and strict isolation are under agreement with the Michigan Department of Agriculture, Division of plant Industry and Michigan State University Agricultural Experiment Station.

You as the grower planting these virus free plants need not concern yourself with isolating them 1500 feet from other strawberry plants, nor should you be concerned with the nematode problem, unless you know that your soil contains nematodes, because these plants are nematode free. Spraying and weed control are good practices and should be carried on diligently in any strawberry planting.

What This Means to You (The Grower)

★ LARGER HEALTHIER PLANTS:

It was evident that virus free stock of several varieties under tests produced three times as many runner plants and a higher percentage of vigorous plants at the end of the season.

★ LARGER YIELDS:

Tests also proved there was a 30 to 50 per cent increase in yields. This in itself make these varieties the most profitable to grow.

★ STOPS TRANSPLANTING LOSSES:

Virus free strawberry plants are larger, healthier, and more vigorous. Virus free plants grow more readily and will transplant without serious losses.

★ RIGID INSPECTIONS:

All plants are grown under strict inspection, by both the Michigan State Department of Agriculture, and Michigan State University.

Famous ROBINSON Best Late-Ripening Berry!

270. Robinson — a berry well worth trying! One of the best mid-season to late berries — ripens ten days to two weeks after Premier. Robinson is one of the largest berries grown, often 30 berries will fill a quart. Fruit is extra-large, bright shiny red, conical in shape and well colored to the very center. Flavor is honey-sweet. It is a vigorous, healthy grower and very productive. Makes a good fruiting row on any soil. Quality and firmness are very good, making it a fine shipping variety. It bears heavily

over a long period, starting shortly after Premier. A favorite with commercial growers and a great success on the market. Plants are healthy and do well in the North. Excellent plant maker. Very hardy and prolific. A wonderful berry for canning and as the berries are solid and deep red all the way through, they make a good variety for freezing purposes. Has little preference as to soil, does well on either clay or sandy loam.

Vigorous CATSKILL Excellent for Freezing

240. Catskill is generally recognized as one of the best of the mid-season to late varieties. This popularity is due to the fact that it will produce more quarts of large berries than any other variety. Catskill is a cross between Premier and Marshall. It is a sure cropper, as it ranks next to Premier in this respect. It rarely ever freezes. Fruit is bright, shiny red; the berries hold their color very well. Plants make a fine, vigorous growth. The fruit is produced on long, thick stems making it easy to pick. Catskill strawberries are unrivalled for flavor — unbeatable for sugar sweetness. An excellent berry for fancy desserts, canning, freezing or jam. Also excellent for shipping because the berries are firm and solid. Very hardy, doing well in all Northern states. Very productive plants, vigorous and healthy.

"BRILLIANT"

Plant Patent
No. 1183

EVERBEARING STRAWBERRY

**EXCELS IN GROWING, BEARING
AND TASTE TEMPTING FEATURES**

STANDS EVERY TEST

New Brilliant is, without doubt, the most amazing Everbearer we have ever seen. Where many varieties fail due to droughts or excessive rains, Brilliant will thrive and continue to produce its usual enormous load of fine fruit. Being a product of the far North, the plants are very hardy and will succeed under most unusual handicaps. We have seen them do equally well on thin, sandy soil, heavy clay and raw muck. On fertile, sandy loam their vigor is almost unbelievable.

BIG YIELDS 7000 QUARTS PER ACRE

Out of tests made with several new and many old everbearing varieties, Brilliant won all records for BIG YIELD and PERFECT BERRIES. Brilliant achieved the amazing production record of 7000 quarts of berries per acre—2000 quarts more per acre than any other variety tested. It is the only everbearer that makes a solid fruiting row against all odds of weather, and keeps fruiting steadily all summer and fall. Brilliant is a 100% perfect polenizer and matures every berry to full size, uniform shape and even color. You get 40% greater yield from your acreage when you plant Brilliant!

**Best for home
garden
plots**

**Big money-maker
for commercial
growers**

MATCHLESS QUALITY & FLAVOR

Brilliant berries are so bright and appetizing you can almost taste them before they reach your mouth. The flavor is an outstanding accomplishment—rich and tangy but lacking in the acidity so common in everbearers; so tasty and juicy you can enjoy them before fully ripe. The flesh is of firm texture and solid throughout; the color is brilliant red clear through. Brilliant berries are so attractive, they are always in demand and bring top prices on the market. A superior berry for every home use, and a real money-maker for the commercial grower.

TRY BRILLIANT

Ripe Berries in 6 Weeks

Brilliant is the quickest berry maker you ever saw! The plants are so thrifty and vigorous, that unlike other everbearers, the very first blossoms can be left right on to bring you perfect berries just a few weeks after the plants are set out. And they keep right on bearing big, luscious, perfect berries continuously all season.

Give these SUPER-BEARERS a chance to work for you this year! Grow all the berries you want for home use and supply your local market through the fall months—at a nice profit. Get the most from your soil this year by planting Brilliant this spring. Order your plants now. Catalog No. 210.

JUMBO (Trade Mark)

Largest Strawberry Grown

255. This exceedingly vigorous grower produces large quantities of berries which are extra large and the flavor is mild and sweet. Plants are strong, vigorous and very healthy; makes an excellent fruiting row. Berries are a very dark red. Berries may be picked when they reach the color of Premier, or allowed to remain on the plant until completely ripe. Not quite as early as Premier. Proven to be one of the heaviest yielding strawberries known and also a good plant maker. Due to its firmness and color, Jumbo is a very good shipper; keeps exceptionally well.

BERRY-SET

112. Imagine getting berries 50 to 100% BIGGER — and sweeter, meatier, more luscious berries with FEWER SEEDS!

BERRY-SET is a Hormone Spray for Bigger Strawberries, Blackberries, Raspberries. It boosts plant production — giving you BIGGER YIELDS and a longer harvest, from the same plants.

How to Use BERRY-SET

Dissolve two level teaspoons in a gallon of water. Spray when about half the blossoms are open. For garden application use an ordinary clean, hand sprayer. Direct spray at plants so blossoms will be enveloped in the mist. For large scale application apply 10 to 15 gallons per acre. (Complete directions on package.)

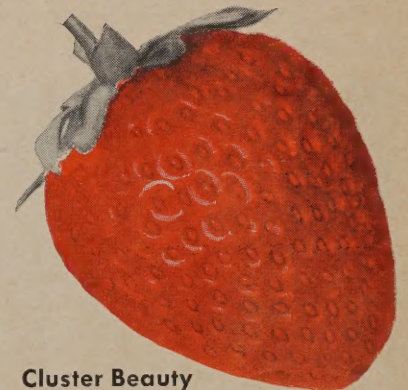

1 oz. Package (makes 4 gallons)...\$.50, postpaid
3 oz. Package (makes 12 gallons)... 1.00, postpaid
12 oz. Package (makes 48 gallons)... 3.00, postpaid

CLUSTER BEAUTY New and Tasty

250. Cluster Beauty is a new strawberry that is even better than the popular Premier. The first berries ripen earlier than Premier and still produce berries after the Premier is gone. Produces nearly twice as many berries as other varieties in the same season. Berries are large and regular in size, the color is scarlet red with a light red center. Excellent for fancy dessert, canning, freezing or jam. Don't delay, order now!

EMLONG'S

Famous for Quality Nursery Stock for over **60** yrs.

IT'S EASY TO ORDER BY MAIL
FROM EMLONG'S

Every year more and more people are getting the "shop-by-mail" habit. Why? Well, let's consider the many advantages:

You avoid crowds and waiting for service. You can make your selections leisurely, in the comfort of your own home. Emlong's catalog makes it easy for you to select what you want — every item is fully described and illustrated faithfully.

You save money. You get better plants for less money when you order-by-mail from Emlong's, because we grow large quantities and ship direct-to-you. Another advantage of ordering from a large grower like Emlong's, is that you get the newer and better varieties first. You have the fun of surprising friends and neighbors with the newest and best in nursery stock.

You profit by our 60 years of horticultural experience — and the continuous development and testing of varieties that is done here at Emlong's by our large staff of plant propagators, to insure your getting top quality nursery stock at bargain prices.

You avoid risk of loss when you order-by-mail from Emlong's, because you are fully protected by our written Guarantee. Join the wise shoppers — order-by-mail now.

10% Discount
FOR JANUARY CASH ORDERS

All orders postmarked before February 1st, and accompanied by cash in full, will be allowed a 10% discount on all items except special offers and those marked "No Discount." Order early and save!

↑ This family knows the pleasure of planning their garden needs in the relaxed comfort of their own home. Here each member — Dad, Mother, Daughter and Son — have a part in discussing and selecting the items they will want to plant this spring.

The plant descriptions and cultural information given in Emlong's catalog is written by experienced, trained horticulturists. It's just like having an expert sit at the table with them, talking things over.

Your whole family will enjoy gardening more if each has a part in planning and selecting.

↑ Emlong's nursery stock is grown by men who have spent a lifetime learning how to do it best. Here Jim McClure, our Propagating Supt., inspects a block of 2-yr.-old fruit trees. Good nursery stock starts with good planting stock — our staff of experts combine their wide practical experience with the latest scientific developments to bring you the very finest nursery stock grown anywhere.

← Our packing house and storage cellar is expertly supervised and manned by a crew of competent workers. Every item you order is carefully inspected and packed with utmost care. You can be sure of receiving your nursery stock in the best possible growing condition when you order from Emlong's.

↑ When you order-by-mail, the postman delivers your nursery stock right to your own front door. Thanks to modern packing methods, the nursery stock you receive is garden fresh — and not only better, but saves you more in money, time and effort.

You're Always Welcome at Emlong's

Our main office, storage buildings and beautiful display gardens are located right on U.S. 12, near St. Joseph, Mich. — only 90 miles from Chicago. You are cordially invited to visit us at any time. We also have a garden center between Niles, Mich., and South Bend, Indiana, on U.S. 31, ½ mile north of Indiana State line.

We extend a most cordial welcome to you, our customers, to visit our nursery at any time and look "behind the scenes at Emlong's." Our big, modern home office building houses a large staff of office workers, among them plant propagators and landscape experts, who will be glad to answer questions and advise you concerning your planting problems.

Soil and Climate, Plus Experience and Modern Methods Produce Emlong's Top Quality Nursery Stock

Both soil and climate here in the fruit belt are ideal for producing strong, hardy plants and trees. However, it takes more than these two elements to produce Emlong's top quality nursery stock. We employ skilled nursery help, and men who are experts in the many operations of growing fine trees and plants. We use the most modern equipment, much of it developed to fit our particular needs. You will find that trees and plants grown the Emlong way will thrive anywhere in the temperate zone if transplanted at the proper time.

We Return All Papers

All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us AT ANY TIME in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our 1957 Spring Catalog are delivered to you postpaid, and are so listed. This saves you money.

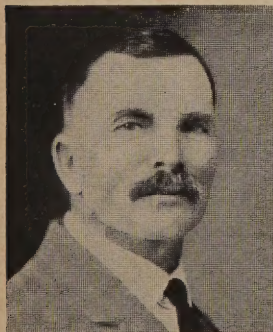

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you, we choose items that fit in with the other items on your order.

References: We refer you to the Farmers & Merchants National Bank, Benton Harbor, Michigan; Postmaster and Express Agent at Stevensville, Michigan; Merchants Credit Bureau, Benton Harbor, Michigan; and Dun and Bradstreet.

ORDER BY NAME and CATALOG NUMBER

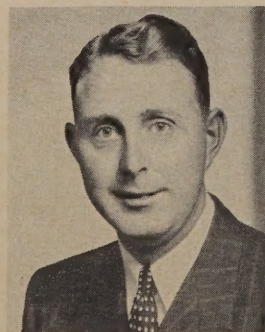

Items listed in this catalog will be reserved for you as long as the limited supply of them lasts. Many items were sold out early last year! Don't wait until planting time — reserve your needs as soon as you receive this book! We send you a receipt and ship at planting time. First orders will receive first attention. Order early and save!

GET YOUR

FREE

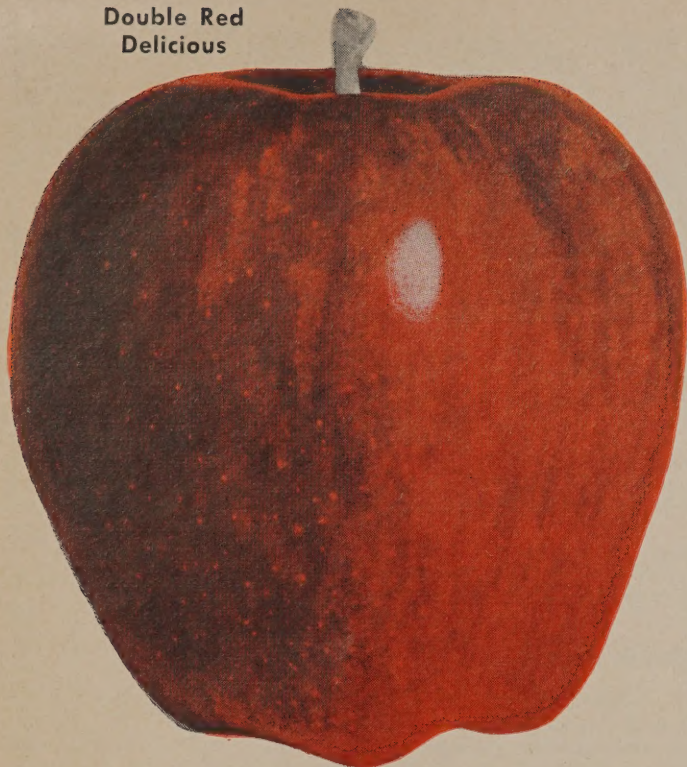

COMPLETE PLANTING GUIDE

With every planting order, we send FREE a complete Planting Guide. It tells in a clear simple way how to plant, so that even if you have never done any planting, you can have success. It tells how to prune, water and care for plants over winter; how far apart to plant, etc.

GUARANTEE

- (1) — Emlong's guarantee everything to reach you in finest growing condition. If found to be otherwise, make damage claim within 3 days after receipt of stock and we will replace damaged items free.
- (2) — Emlong's guarantee all stock to grow and live. If anything fails, report such loss to us within 60 days, or not later than July 1st. We replace during the next planting season. Half price replacements from July 1 to September 1. The nursery is not responsible for losses caused by unfavorable weather or improper planting care.
- (3) — Emlong's guarantee everything to be true to name, if found to be otherwise, we will replace free upon due proof of untruthfulness. It is mutually agreed that our liability cannot be greater than the purchase price.

Double Red
Delicious

PLANT EMLONG'S Superior Northern Grown

WINTER APPLES

306. **DOUBLE RED DELICIOUS.** Truly King of the winter eating Apples. Very fine solid red strain of Delicious, resembling its parent in all characteristics except color. Ripens in October. Excellent shipper and keeper. A big seller from coast to coast.
312. **GRIMES GOLDEN.** A winter Apple of outstanding good flavor. Waxy, yellow-skinned, uniform Apples; wonderful shipper. Flesh is very firm and does not bruise easily. In great demand for drying, baking and pies. Trees are hardy and prolific.
320. **RED ROME BEAUTY.** An all-red strain of the old Rome Beauty. Highly prized for baking purposes. Trees are vigorous growing and yield heavy crops of large, evenly colored Apples that keep extremely well all winter.
314. **RED JONATHAN.** The favorite, large, red Jonathan so popular with commercial growers. Flavor makes fruit desirable for eating fresh and for cooking. Flesh is crisp, white and juicy. Trees bear young and are very productive and long lived.
318. **RED NORTHERN SPY.** Dressed up in its new bright skin, the old hardy favorite retains its famous quality and flavor. Large fruit, firm in flesh and skin, it keeps wonderfully well in storage. Very much a favorite for drying, baking, cooking, pies and freezing.

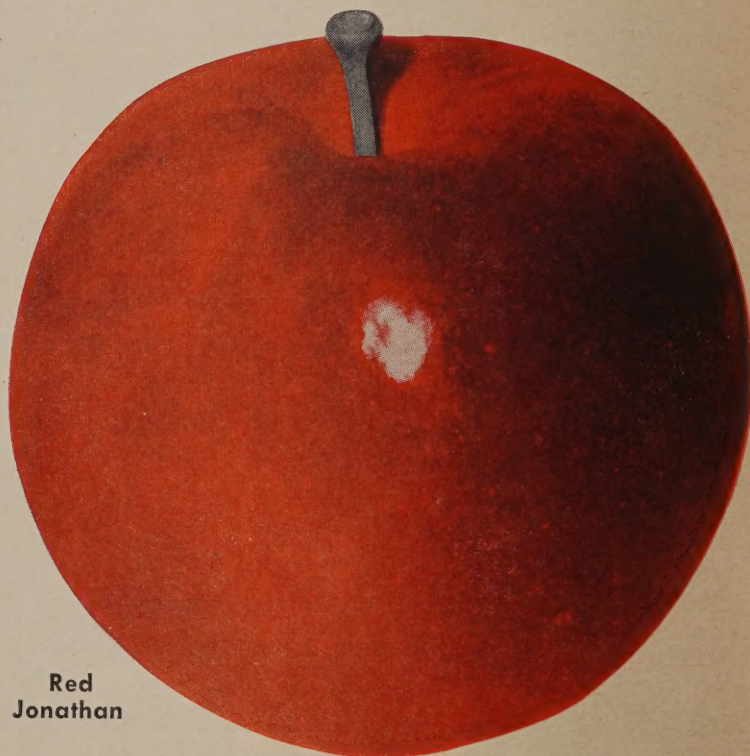

322. **TURLEY WINESAP.** The best keeper of the solid all-red winter Apples. Ripens earlier than other Winesaps; colors on the tree to a bright, rich all-over red. Fruit is large, uniform and firm; flesh has excellent flavor, crisp and juicy. In big demand for shipping, storage, for drying, cooking and eating fresh. A perfect all-around Apple. Trees are thrifty and hardy, produce big crops every year.

308. **YELLOW DELICIOUS.** Queen of the late fall eating Apples. Similar in shape and size to Red Delicious, but color is golden yellow. Flesh is firm, crisp and juicy and deliciously flavorful. The big, richly fragrant, golden fruits are considered the finest of yellow Apples. Keep exceptionally well all winter without becoming mealy. Our large fruiting strain bears young and abundantly.

"Pride O' Mich" HEALTHY APPLE TREES

SUMMER and FALL APPLES

YELLOW TRANSPARENT. 324. (Summer) (Lodi Improved Strain.) Apples have waxy, yellowish-white skin, moderately long stem, crisp, tender white flesh with sprightly sub-acid flavor. Always produces a big crop of tasty Apples for pies and cooking during summer. Hardy no matter how cold your winters. Thrives in all soils and bears quickly. A perfect pollinizer.

CORTLAND. 304. (Fall) A shapely, big, round Apple which has won fame for its quick bearing and heavy yielding habit. Flesh is white, tender sub-acid. Good to eat fresh or cooked; delicious pie variety. Mostly dark red when ripe, overspread with attractive purplish bloom. Hardy everywhere; an excellent pollinizer.

RED MCINTOSH. 316. (Fall) Emlong's long fruiting strain of McIntosh is a winner for flavor and quality. Bright red fruits of good size with white flesh. A fine juicy and highly aromatic Apple. Beautiful and a good seller. Heavy bearing, ripening in fall.

New RED RICH EVERBEARING STRAWBERRY

(Plant Pat. No. 993)

Up to a Quart of Berries per Plant

225. You've never seen plants so BIG and so VIGOROUS, or berries so RICH in bright RED color clear through to the core! Flavor? Ummm! One bite will convince you New RED RICH is the sweetest berry grown!

Developed in Minnesota, RED RICH is the result of a cross between Wayzata everbearer and Fairfax. It combines the best qualities of both — big, firm berries and wonderful honey-sweet flavor that made Wayzata famous; coupled with thrifty growth, heavy yield and the good plant-making ability of Fairfax.

BEARS ALL SUMMER

RED RICH ripens its first berries in June and keeps right on giving you heavy yields all summer right through to fall. Big, luscious berries with a firmness clear through that holds up exceptionally well in storage or shipping.

Freeze Them Whole — Little Sugar Needed

RED RICH is unsurpassed for freezing. Possesses such an abundance of natural sugar, very little or none at all need be added. Freeze them whole! Red Rich retains its firm flesh texture and won't mush-up when thawed. You'll get wonderful desserts all winter long from your Red Rich berries.

Plant By New Method — Get Bigger Yields

Each Red Rich plant shipment carries new "Space System" planting instructions. Be sure to follow these carefully and you'll be delighted with the results. Commercial growers and home gardeners alike can profit by planting Red Rich. Supply is limited so order today.

Sensational New "SUMMER LONG" EVERBEARING PEACH

Fresh Peaches July to September

646. An everbearing Peach tree? That's right. Just imagine a Peach tree starting to bear about the 20th of July and continuing through the 25th of September. Have fresh Peaches all summer long from one single tree.

A Modern Fruit Tree for Your Garden

This Everbearing Peach is perfect for your garden. The "Summer Long" Peach has golden yellow flesh. It is a remarkable freestone Peach which has all of the excellent qualities of other Peaches and will produce tasty fruit from July until late September. Fruit is very delicious either for canning, eating fresh or for desserts and jams.

No Wasted Fruit — Enjoy Them As They Ripen

With this Peach tree in your garden, you can enjoy Peaches for two months instead of only a week or two. It will not be necessary to plant a variety of kinds, just one "Summer Long" Peach tree for fruit all summer. Trees are very hardy and require no more care than other varieties.

World's Finest Pie Cherry MONTMORENCY

Emlong's Improved Strain

402. Regardless of where you live, MONTMORENCY is the only profitable Sour Cherry to grow. Bright red, big, round, juicy fruit. Deliciously sub-acid; good to eat fresh off the tree or canned. Makes wonderful pies and cider. Preferred by canners to all other sour varieties. Fruit has remarkable keeping qualities on the trees and after picked. Ripens midsummer to late. Trees are self-pollinating. Always yield an enormous crop of Grade A fruit. Montmorency has long been the leading Sour Cherry with commercial growers and home gardeners alike.

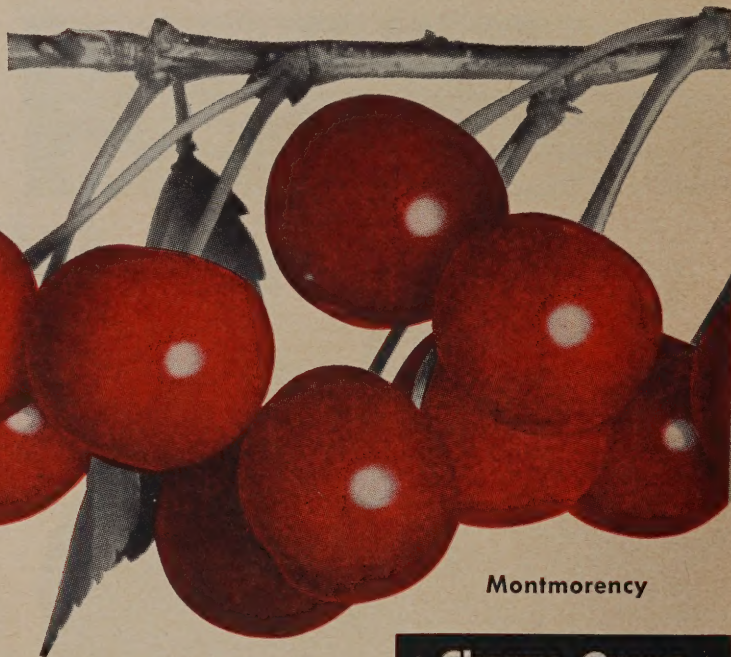

Emlong's strain of large Montmorency bears young. Our trees are now certified by the Michigan State Department of Agriculture to be propagated from virus disease-free budwood. This special feature costs you nothing extra. This year and every year Emlong's big nursery is headquarters for the finest Montmorency trees in the world. Orchardists from all the big fruit belts come to our nursery for their trees. We know our trees will please you as they have others. You will profit by planting Montmorency this spring.

GROW **Giant Blueberries** — COMMERCIALY or IN YOUR OWN GARDEN

New COVEL — Largest of All Blueberries

747. Larger berries—long fruiting season. The best new variety offered for commercial use. The fruit grows in large clusters of extra-large, beautiful blue berries. Fruit has mild, sweet flavor and is uniform in size and shape. Healthy, vigorous plants. Mid-season to late.

COVEL BLUEBERRY PRICES

	Each	2	5	10
2 yr.	\$1.25	\$2.40	\$5.75	\$ 9.95
3 yr.	1.75	3.40	6.95	12.50

For a big money-making crop, these giant size, dark blue Blueberries are without equal. Each bush is a fruit garden in itself. Berries are mild and sweet. Fruit ripens over a long season and keeps well on bushes and after picked.

The bushes are lovely in the spring with their huge clusters of flowers similar to Lily-of-the-Valley. Leaves are stiff, waxy green, turning red in the autumn. Make the soil acid with peat moss or sulphur fertilizer.

Blueberries can be shipped long distances and make a very profitable crop for the commercial grower. Plants usually start to bear the third year, and increase in productiveness until the tenth year. Plant two or more bushes for perfect pollination; set 5 to 7 feet apart.

Black Giant

HEAVY BEARING

SWEET CHERRIES

BLACK GIANT. 406. Our largest, blackest and sweetest Cherry! Bears the heaviest crops of any Sweet Cherry we have grown. Ripens late, keeps a long time on the tree. Excellent shipper and canner. Hardy as Tartarian. A beauty which you will grow with pride. Self pollenizing.

WINDSOR. 414. Cherries ripen late, prolonging your Cherry profits. Fruits are large, dark maroon in color, with wonderful keeping and shipping quality. Very hardy and an abundant yielder. Self-pollenizing. We highly recommend Windsor for a well-rounded orchard.

BLACK TARTARIAN. 408. The very popular purplish-black Sweet Cherry, which ripens so early and has marvelously rich flavor. Fruit matures to large size. Trees are hardy and bear young and heavily. A leading shipping and canning Cherry. Excellent pollinizer.

SCHMIDT. 412. For the midsummer market there is no finer Sweet Cherry grown. Fruits are extra large, plump and uniform in size. A beautiful dark, glossy black in color. The flavor is rich and superb. Quality is extra firm and fine for fresh desserts and canning. Good shipper. Hardy, prolific bearer. Plant Black Tartarian for pollinizer.

NAPOLEON. 410. The favorite golden Sweet Cherry with beautiful pink cheek. Known in some sections as Royal Ann. Very large fruits; deliciously sweet flavored. Favored for fresh desserts and canning. Heavy producer and good pollinizer.

BING. 404. Famous from coast to coast. Wonderful dessert cherry. Richly flavored, extra large size, brownish black-red color. Ripens midseason. Self-pollenizing.

Emlong's MAJOR Blackcap

LEADING NEW BLACK RASPBERRY

706. For many years we have been watching new varieties of Blackcaps grown and tested, and we have found one that we believe tops all others. Major Blackcap was originated here in Berrien County, Michigan — and by every test it is the leading Blackcap!

Biggest Yields — Biggest Berries

Major yields bigger crops of top quality berries than any other variety. The berries are larger, glistening black, uniformly round, firm textured and extra rich in flavor. They sell at higher prices, therefore, pay better than other blackcap varieties. For profitable commercial crops and for home gardens, we highly recommend Major. Price below.

MORRISON

708. An outstanding late ripening variety. Berries are very large and less seedy than others. Very firm texture yet juicy and deliciously flavored. Hold their shiny black color and firmness exceptionally well; excellent for canning and freezing.

Latham

CUMBERLAND

702. Ripens midsummer and bears through the late season, producing profitable crops of large, firm, round, glistening black berries that "ooze" with rich flavor. In big demand for fresh desserts, canning and freezing. Plants are self-supporting and non-suckering. Hardy, thrifty growers; will thrive anywhere.

LOGAN

704. This variety should be in every garden and commercial planting because it ripens extra early. Planted along with Cumberland, it lengthens the fruit season thereby increasing profits. Berries have good flavor and firm quality; ideal for every purpose.

GOLDEN QUEEN RASPBERRY

732. Beautiful large, golden yellow Raspberry. Many prefer Golden Queen because of its sugary sweetness and unsurpassed flavor. An attractive dessert berry and very unusual when served in combination with either Black or Red Raspberries as a dessert. The canes are hardy, vigorous growers and heavy croppers. Ripens with Latham. Culture is the same as that for Red Raspberries.

L

RED RASPBERRY Latham

The Commercial Leader

712. Attractive deep red berries, uniformly round and unusually large; often measuring one inch in diameter. Deliciously full-flavored and aromatic. Latham berries are top quality and always in demand for fresh desserts, canning and freezing. They bring highest prices on the fruit market and have long been the leading commercial variety. Plants are hardy, thrifty growers and bear enormous crops. Sometimes surprise you with extra berries in the fall on the new growth.

NEW SEPTEMBER

EVERBEARING RED RASPBERRY

Bears Two Crops In One Year

714. A superior autumn-fruiting Red Raspberry that ripens about 5 days earlier than Newburgh; fall crop matures 3 to 4 weeks before other varieties, thus avoiding failure due to fall freezes. The plants are hardy, vigorous growing and increase rapidly. Berries are bright red and uniform in shape. Keep well on bushes and after picking.

Sensational New Blackberry

EBONY KING

GUARANTEED TO BEAR

730. Ebony King is a super-bearing variety. The plants are vigorous growing and healthy, and every berry matures properly. The fruit is very large, glossy black and jam-packed with tangy sweet flavor. Ebony King is a young bearing, early ripening variety and meets with full approval of processors and fresh fruit people.

EXCELLENT FOR HOME GARDENING

You home gardeners can certainly benefit by this new origination due to its positive bearing qualities. Just a few plants of this super-bearing variety will provide you with an abundance of tangy sweet berries for every home use. Pies made from Ebony King are "out of this world"!

SUPERIOR COMMERCIAL PRODUCER

Yes, it's true that Emlong's have developed a Blackberry that is guaranteed to bear an excellent crop of fine quality berries. With Ebony King you can be sure that every plant will yield mature, full-size fruit and not those small dried-up berries other varieties produce. Always in demand for the fresh fruit market and fruit processors, Ebony King commands top prices. Make yourself a handsome profit by planting Ebony King this spring.

Outstanding NEW Black Raspberry

BLACKHAWK

Outyields All Other Varieties

701. A new Black Raspberry originated by the Iowa State College and introduced in 1955. In tests, it outyielded all other varieties. Black Hawk has produced as many as 5000 pints per acre. The large to very large fruit often measures $\frac{3}{4}$ inch in diameter. Berries are sweet, juicy and have a rich flavor. Excellent for eating fresh, canning or in pies and jam. Ripens midseason, about the first week in July. Plants are strong, healthy and vigorous. The berries have a rich glossy black color, are firm and stand up well in shipping and handling.

Important Notice:

We ship Currant and Gooseberry bushes only to Michigan, Illinois, Indiana, Kansas, Missouri, Iowa, Nebraska, Oklahoma, North Dakota, South Dakota, Kentucky and Texas. Currant plants are permitted entry into some of the other states providing you do not live in an area where Pine are grown. Write to your State Entomologist, advise him where you wish to plant, the variety and amount, and if you are located in a non-control area, he will issue a special permit. If you can secure this permit, send this along when placing your order. Please do not order in control areas unless you secure this permit.

The Favorite Garden and Market GRAPES

CALIFORNIA TYPE HARDY GRAPES

SENECA. 804. The new skinless Grape. Large, compact bunches with golden yellow, oval shaped berries. Texture firm and the skin can be eaten. Flavor is honey-sweet and aromatic. Ripens early. Hardy and vigorous; grows anywhere. Keeps well on the vine or in storage until late fall.

	Each	2	5	10
2 yr. No. 1 Plants	\$.80	\$1.50	\$3.65	\$6.95

GOLDEN MUSCAT. 802. Wonderful new golden yellow Grape. Very large, compact clusters with large, juicy, sweet and tender berries.

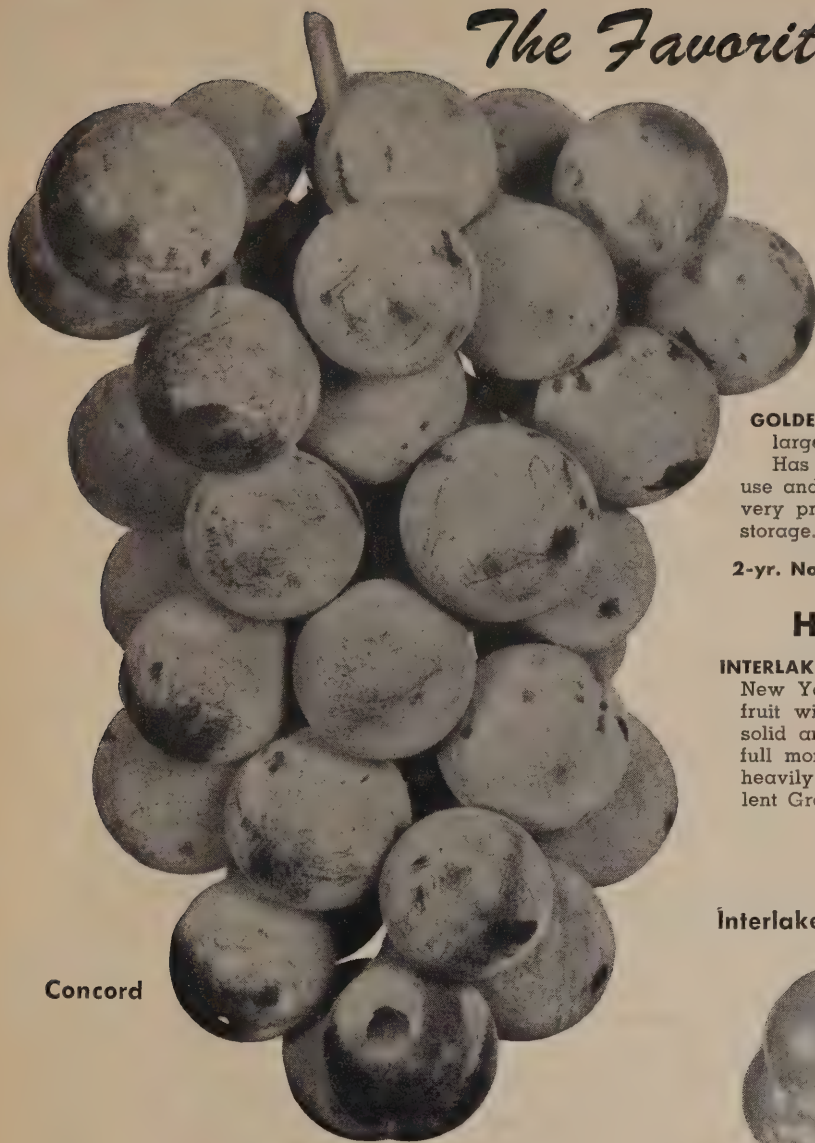

Has tangy Muscat-like flavor; desirable for fancy dessert. For home use and as a commercial Grape it cannot be beat. Vine is vigorous and very productive. Ripens late and keeps a long time on the vines or in storage.

	Each	2	5	10
2-yr. No. 1 Plants.....	\$.80	\$1.50	\$3.65	\$6.95

HARDY NORTHERN TYPE GRAPES

INTERLAKEN SEEDLESS. 816. A new variety developed in Geneva at the New York State Experiment Station. It produces a rich, golden yellow fruit with medium sized berries that are very sweet. Flesh is meaty, solid and crisp. Can be eaten whole like California Grapes. Ripens a full month ahead of Concord. A strong growing variety, bears young, heavily and regularly. Deliciously flavored for home use and an excellent Grape for commercial planting.

\$1.50 each 2 for \$2.95 5 for \$8.95

Concord

CONCORD. 806. The leading big-crop, dark blue Grape. Keeps a long time on vines and after harvesting. Fine for shipping, for cannery and winery trade. Excellent flavor. Usually bears second year.

FREDONIA. 808. Very dependable blue-black Grape. Earliest to ripen. Produces large berries and bunches uniformly formed. Deliciously flavored whether eaten fresh or made into jelly or wine.

NIAGARA. 810. Large, perfectly formed bunches of berries. Beautiful amber-green-white color. Rich aroma makes it a good seller. Tangy, muscat-like flavor. Excellent for all purposes.

CATAWBA. 812. Best of the red varieties. Fruit extra large; bunches compact and of good size. The only red Grape that has proved itself over the years to be the best for commercial planting and home garden.

VAN BUREN. 814. Extra-early ripening variety. Bears big, compact bunches of deliciously sweet berries; exceptionally fine for fresh desserts. Hardy and a heavy producer.

Plant *Emlong's* PLUM

RED GIANT

An Amazing New Plum
Large in Size

558. One of the most beautiful Plum. Roundish oblong in shape, the fruit often measures 2½ to 3 inches long, in clusters of 7 to 12 giant beauties on the end of each branch. Ripening early, Red Giant plums attain a deep glowing maroon-red color, thickly overspread with pink bloom. Flesh is greenish yellow, very firm, fine and sweet. Red Giant is an outstanding all-purpose Plum; good for the small home garden and for the commercial grower, too. Wonderful shipper and canner. Plant 2 trees for best results. (Grown and sold only by Emlong's. Property rights reserved.)

SUPERIOR Semi-Dwarf, Young Bearing

562. Beautiful wine-red skin covered with purple bloom. Yellow flesh is delicious, sweet and juicy; freestone. A very good all-around Plum for every purpose. Fruits are extra large and good shippers and keepers. Trees bear early and yield big crops. Very hardy; recommended for northern and western states. Plant two trees for best results.

Eureka

The New RED RHUBARBS

VALENTINE. 858. Deep bright red in color. Texture smooth and tender. Has a rich flavor with a slightly tart aftertaste. The Valentine is an introduction of the Ontario Horticultural Experiment Station and has taken the lead among the red Rhubarbs. Combining very high quality and richness of flavor, vigor and growth, the Valentine will soon be the standard by which all other Rhubarbs are measured. Plant Valentine this spring and enjoy its fruit for years to come. 80c each; 3 for \$2.20; 6 for \$3.95, postpaid.

RUBY RED

856. Large, plump, red-in-the-center stalks of the sweetest Rhubarb that you ever tasted. Excellent for pies and sauce; stalks are tender and never stringy. Early spring fruit, quickly forms a large-clump. Hardy and easy to grow anywhere. Three mature plants will supply the average family for year-round use. 75c each; 3 for \$2.00; 6 for \$3.50, postpaid.

KING SIZE PLUM TREES

Varieties: Superior and Italian Prune. You save several years by planting King Size Trees now! No waiting for crops.

\$3.00 each 2 for \$5.75

SODUS PURPLECAP

745. The leading purple Raspberry. Introduced by the New York Experiment Station. Berries are very large, firm, medium purple in color, delicious and juicy. Excellent for pies. Plants are very vigorous, hardy and highly productive. Resistant to drought. Yields a good crop every year.

TREES ENJOY THEIR FINE FRUIT

STANLEY PRUNE Best Commercial Type

560. Sweetest Prune grown and bears the quickest. Often starts bearing the second year and yields heavily every year. Beautiful dark blue skin, overspread with attractive bloom. Fine sweet, juicy golden flesh. Juice is rich wine-purple. Freestone. Ripens mid-season. Hardy and thrifty grower; self-pollenizing.

ITALIAN PRUNE — A Favorite

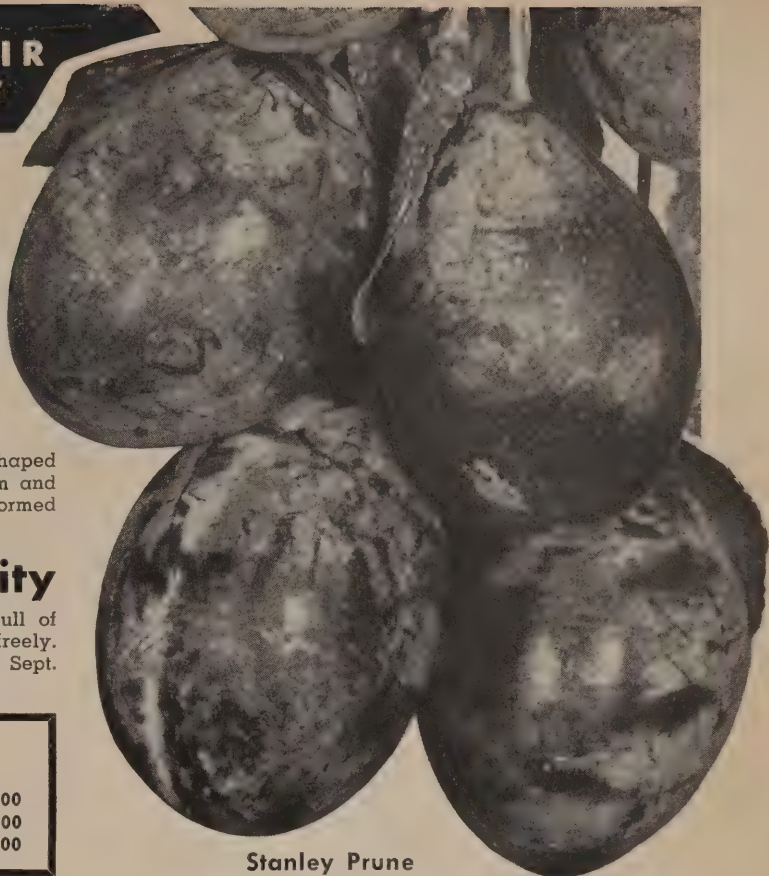

556. Is the most widely grown of all Plums. Large, oval-shaped purple-blue Plum with attractive coating of blue bloom. Flesh is firm and golden, good texture and flavor. Tree is hardy, productive, well formed and bears regularly. Self-pollenizing. Excellent shipper.

GREEN GAGE — Tops in Quality

554. The famous dessert Plum with the sweet-tart flavor. Just full of sweet, sugary flavor. Large, greenish-yellow fruits are produced freely. Flesh is fine-grained, firm and juicy. Freestone. Ripens in early Sept. Self-pollenizing. It is not suited for extremely cold sections.

Emlong's Outstanding PEAR TREES

DELICIOUS — EASY TO GROW

BARTLETT. 452. The leading commercial Pear. Large, waxy yellow fruit with red blush. Flesh is superbly flavored, fine textured white and juicy. Ripens in summer. Bartlett is the most widely known and attractive of all Pears. A big money-maker. Favored for fresh desserts, canning and summer storage. Plant Emlong's PRIDE-O-MICH strain to insure perfection.

BOSC. 454. There is no finer flavored Pear than the long necked Bosc, which is sold on the fancy fruit stands at a handsome profit. Firm skin makes it a wonderful keeper. Unequalled as a dessert Pear with its very firm, sweet white flesh.

CLAPP'S FAVORITE. 458. Large, uniform pears with beautiful green skin deeply blushed carmine-red. Flesh is crisp, white, juicy and sweet. Hardy, thrifty grower and bountiful producer. Ripens in summer.

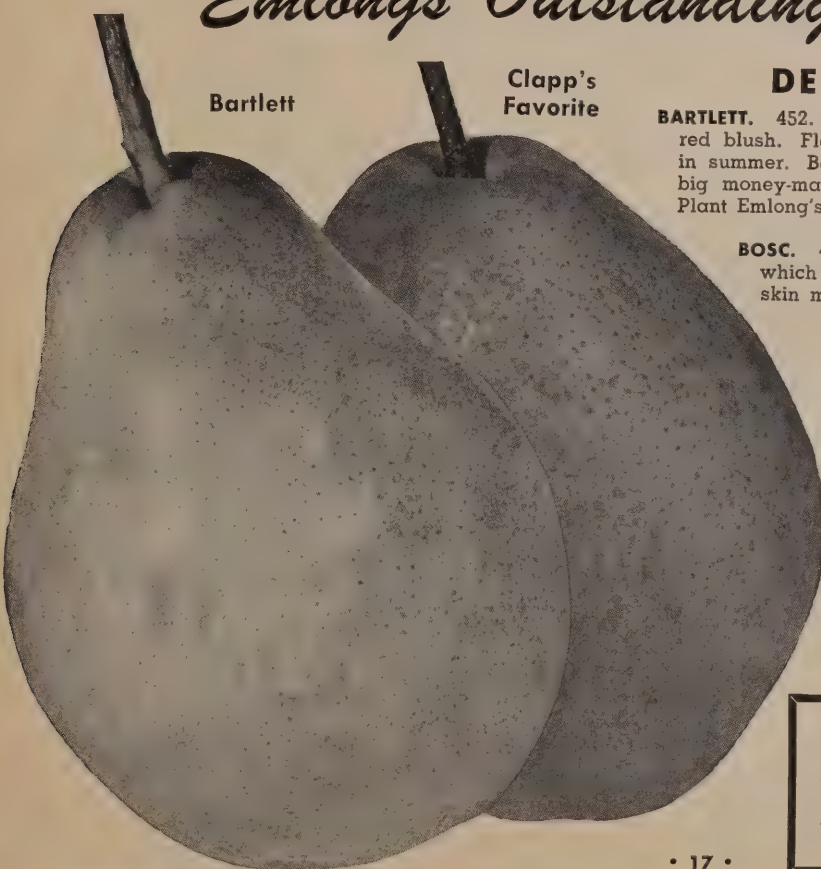

SECKEL. 460. Because of its sweet delicious flavor it is called the Sugar Pear. Fruit is small, but of the highest quality and especially favored for preserves. Ripens in late summer; bears young and heavily. Blight-resistant.

CAMPAS. 456. The new, extra large, yellow Winter or Holiday Pear. Belongs to the Kieffer family. More richly flavored and of finer texture. Smooth, white, crisp, aromatic flesh. Profitable variety for winter storage and canning. Bears heavily and regularly.

AMERICAN BUTTERNUT

904. Long, narrow kernels, tender and white; very much sought for eating fresh and to use in baked goods, desserts and confections. A prolific crop is borne each year on very hardy trees of the Walnut family. Attractive foliage and spreading head. Trees grow easily and in almost every section of the United States. One of the most shapely and beautiful trees, very adaptable and desirable for lawn, landscape, or orchard planting. Attains large size at maturity. Starts to bear when about 3 to 5 years of age and will bear a crop of nuts annually. Stands moist soil. Plant 2 trees for best results.

ASPARAGUS

EASY TO GROW GOOD FOR YOU

One planting of Asparagus lasts many years. Requires little care. Asparagus is always ready to sell early in the spring before other vegetables are ripe and always brings a good price. Emlong's home-grown roots are bright colored and of large caliper. **Plant them during March, April and May.**

PARADISE. 852. The new giant strain of Asparagus from California. Makes long, thick, very tender stalks. Grows quickly. Said to bear usable tips a year sooner than other kinds. Paradise retains its color when canned or frozen. Very profitable and very dependable for home or market. Rust resistant and very productive. A hundred roots will supply the average family for many years. Plant the same as Washington.

WASHINGTON. 854. Introduced by the U. S. Department of Agriculture, this has long been the leading commercial Asparagus. Produces large, tender, green tips. Mild, rich full flavor, very delicious. In great demand for shipping, canning and freezing. Plant the roots 12 inches apart in the garden. In the field rows can be 4 feet apart. 5000 roots plant an acre.

CHINESE CHESTNUT

Mammoth Size — Blight Resistant

908. Wonderful new strain. Proven highly blight resistant in this country. Extremely hardy and vigorous. Trees are rapid growing, quick to bear and very heavy yielders. Trees produce nuts of fine flavor, sweet and are larger than those produced on the ordinary American variety. The meaty nutritious nuts are a favorite of everyone; always in demand for baking, confections and eating during the winter holidays. Trees grow about the size of an apple tree and are very decorative for lawn, providing good shade besides yielding an abundant crop of nuts each year. Bear young. Will thrive in any well-drained soil and require very little care once they are set out. For a profitable crop of nuts as well as beauty and shade, we recommend planting a few trees. Plant 2 trees for best results.

REDSKIN New Red Color

522. A new introduction that is hardy, productive, large, beautiful and delicious! REDSKIN is a cross between the well-known J. H. Hale and Elberta varieties and will eventually become as popular commercially as the Elberta is today. It ripens with Elberta and has a beautiful red color. The fruit is round and yellow-fleshed with little or no red near the pit. Freestone, self-pollenizing. It is a leading shipper with excellent quality. Also good for canning and freezing. The tree bears well, is hardy, vigorous, early bearing, long-lived and resistant to disease.

SUN HIGH Excellent Quality

526. A new introduction by the New Jersey Experiment Station. The fruit is large, bright red, of excellent quality and flavor, yellow fleshed and always freestone. Especially noted for its excellent quality, high color and firmness in shipping. Delicious, mouth-watering flavor. Ideal for eating, canning, freezing as well as a top ranking commercial Peach. Hardy, young bearing, heavy producing trees. Ripens fifteen days before Elberta.

KALHAVEN Good Shipper

517. Extra large Peach of uniform round shape and beautiful all-over red color. Has an excellent flavor and firm, fine-textured flesh. Freestone. Kalhaven is a cross between J. H. Hale and the Kalamazoo variety. Ripens a few days after the regular Elberta. Tree bears young, produces heavily year after year. An exceptionally good shipper and keeper. Self-pollenizer.

RIO-OSO-GEM Best Late

524. A remarkable Peach ripening a few days after Elberta. The fruit is large, round and highly colored. Very attractive in appearance. Flesh deep golden yellow, fine grained, firm textured and separating freely from the pit. Because of the firmness of flesh it is highly recommended for freezing, canning and shipping. A splendid Peach with many fine qualities making it a profitable Peach to be grown by both commercial and home orchardists. Very hardy and heavy producing.

GOLDEN JUBILEE Extra Early

512. Medium to large fruit ripening almost four weeks ahead of Elberta. Considered to be one of the best and earliest ripening varieties. Fine flavor, yellow freestone, attractive color and fine textured. Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Fruit excellent for home use as well as market. Hardy, young bearing, heavy producing trees.

HALE HAVEN

514. An excellent Peach, result of crossing the J. H. Hale and South Haven. A large beautifully colored, yellow-fleshed Peach. Ripens approximately 15 days ahead of Elberta. Perfect freestone, strong grower, very hardy, heavy bearer; excellent flavor.

REDHAVEN – Extra Early

520. A flaming scarlet Peach that ripens extra early and is very hardy. Originating in Michigan. Redhaven will be colored up with gorgeous all-over red and ready to pick and ship while the fruit is still firm and easy to handle. Firm textured, fine, sweet, golden flesh; wonderful dessert Peach and good for freezing too. Tree bears very young, produces heavily year after year. Ripens 10 days ahead of regular Hale Haven. Freestone. Self-pollenizing.

FAIRHAVEN – Honey Sweet

508. An outstanding new variety developed through efforts of Stanley Johnson, Director of Experiment Station at South Haven, Michigan. A cross between J. H. Hale and South Haven — its parentage is excellent. Fruits are medium large, bright golden color with bright red cheeks. Ships exceptionally well. Ripens August 10 to 20. Fairhaven trees have shown no marked weakness to date. A very hardy freestone peach.

ELBERTA – Great Commercial Peach

506. Universally known as the outstanding money-maker wherever Peaches are grown. Oval in shape with deep golden skin blushed carmine-red. Flesh is golden, fine grained, firm textured. Unquestionably the leading Peach for home and commercial use. Freestone. Self-pollenizing. Young bearing variety. Enormous yield at maturity.

J. H. HALE – Extra Large Peach

516. Richly flavored, fine textured, golden yellow flesh. Skin is bright yellow, deeply blushed with red and nearly fuzzless. Always sells at top prices. Semi-fertile; plant a good pollinizer every third row, preferably Hale-Haven. Ripens Aug. 20 to Sept. 5.

Dwarf Fruit Trees

Grow Full Size Fruit in Your Own Back Yard

DWARF APPLE TREES

Dwarf Apple Trees are in great demand by the grower with limited space. The small trees grow about 8 to 12 feet tall at maturity and do not spread more than 10 to 12 feet. Although the trees are dwarf in size, they will bear the same size fruit as the standard trees. They often start bearing the second year after planting. Mouth-watering fruit is produced in abundance and is easily picked. A dwarf apple tree is a beautiful addition to your landscape as an ornamental. Plant several varieties of different ripening dates and have an ample supply of apples all season long. Enjoy this easy-to-pick fruit in your own yard without delay. Plant several trees of different ripening dates to give you a succession of apples all season.

Important: Plant with bud union 2 to 3 inches above surface of the ground. Limited supply. Order now.

DWARF PEAR TREES

Trees bear full-sized, delicious fruit, the same as standard varieties. Often start to bear the year after planting. Always produce a full crop of large sized fruit. Ideal for the home garden and growers with limited space. Trees are very ornamental in spring with their abundance of creamy white fragrant blossoms. Plant as close as 5 feet apart. These sturdy dwarfs seldom grow more than 6 to 10 feet tall and are loaded to the ground with fruit. Easy to pick—throw away your ladders, stand on the ground and pick bushels of Pears. Trees are hardy, thrifty and heavy bearers.

◀ OKA DWARF CHERRY

628. Larger than Cherries, fruit is dark purplish-red all the way through and very delicious. This hardy, Hybrid Cherry Plum bears a full crop even in the coldest climates where Cherries do not thrive. Very hardy, early bearing and of prolific Dwarf habit. Showy blossoms followed by full crop of fruit. The trees themselves are shapely with good foliage, flowers and fruit, attractive enough to plant anywhere. A beautiful and ornamental tree to plant in garden or border, preferably near Plum trees. Fruit is about 1 inch in diameter, very sweet and very delicious for eating fresh, and for jams and jellies. Fruit ripens late July or early August. Plant two trees for best results. Bears quickly.

Dwarf Peaches

BIG Peaches ON DWARF TREES

Raise Full Size Fruit in Your Own Back Yard

We are now able to offer Dwarf Peach Trees producing full size delicious peaches, often larger than those produced on full size trees. These trees are grown on special root stock with an ultimate height of 6 feet. The fruit can be picked from the ground without the necessity of having a ladder. The tree is easy to care for, requiring very little space and will bear fruit for many years. It is a heavy producer; providing more than enough fruit for you and your family. Also a beautiful ornamental when in bloom in the spring. You can enjoy luscious fresh peaches picked right from your own trees even though you have only an ordinary sized backyard. A perfect tree for beauty and fruit. We are offering these trees in four varieties only. **The supply of these trees is very limited. Order early.**

Dwarf BEACH PLUM

Amazing New Ornamental

630. The Beach Plum in full bloom is a thing of great beauty. Again a unique bush has been developed which is not only a beautiful ornamental but valuable for its fruit. Beautiful white flowers appear in early spring before the leaves; glossy green foliage. Bears first or second year after planting. An absolutely hardy, wonderful productive bush that grows vigorously even in poorest soil. Dwarf — 3 feet tall. Heavy bearer. The fruit is deep blue, sweet, good flavor. Excellent for jams and jellies. Ripens in August. Small pit.

DWARF PIE CHERRIES

NORTH STAR DWARF CHERRY

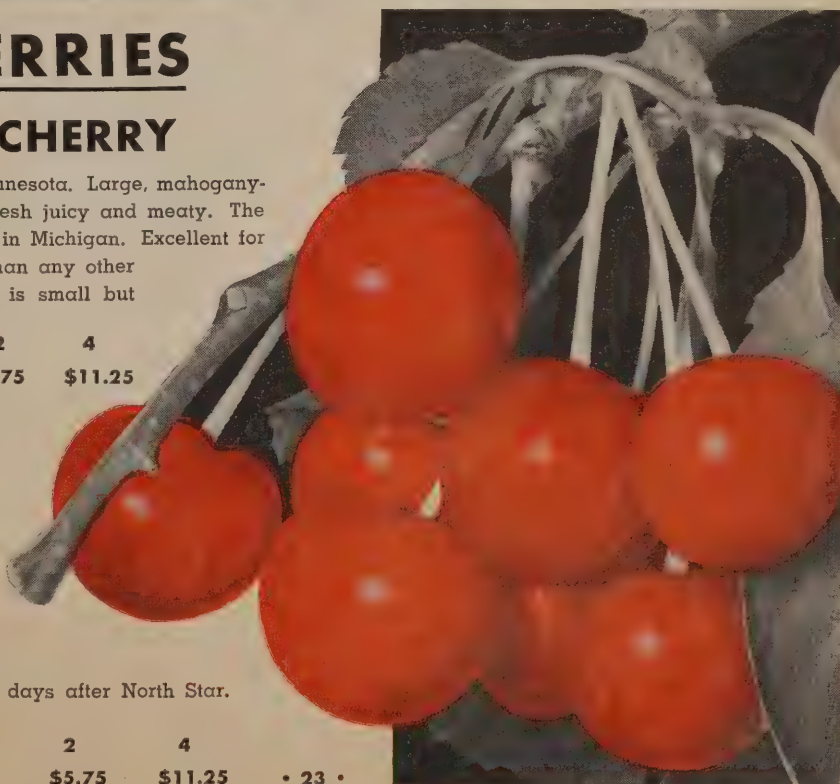

632. New dwarf cherry originated by the University of Minnesota. Large, mahogany-red cherries on a dwarf tree 5 to 7 feet tall. Skin tender, flesh juicy and meaty. The fruit ripening season is early, starting about the first of July in Michigan. Excellent for pies and sauce. Very hardy — will succeed farther north than any other cherry of equal size and quality, except Meteor. The tree is small but productive and is self-fertile.

	Each	2	4
3-4 ft. trees.....	\$2.95	\$5.75	\$11.25

METEOR DWARF CHERRY

631. A jumbo pie cherry! Trees grow 8 to 10 feet tall and will thrive in even the severest climates. The fruit is large, often larger than that of the larger trees. You will be able to pick most, if not all, of the fruit right from the ground. Trees are attractive even without fruit. In early spring, it is a solid mass of white flowers. Trees are attractive in foliage, blossom and fruit. The gorgeous fruits are meaty, juicy, skin is thin and very tender. Ripens about 12 days after North Star. Extremely heavy bearer.

	Each	2	4
3-4 ft. trees.....	\$2.95	\$5.75	\$11.25

on Page 22

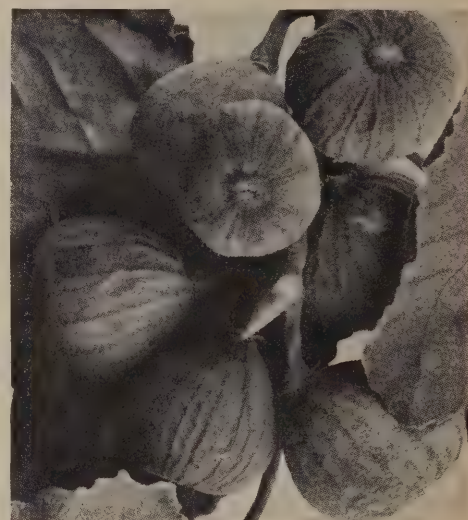

626. Tree is of dwarf habit but a rapid grower. Often starts to bear the year after planting. Trees are very ornamental in early spring when the branches are covered with shimmering white blossoms followed by an abundance of fruit. Fruit is red-fleshed, medium-sized; deliciously sweet and juicy. Small freestone. Fruit is firm, good for canning, pies and shipping. Enormous cropper even in the coldest climates. Hardy in all sections. Plant two trees for best results.

Everbearing → DWARF FIG

640. Sure you can grow them! Our everbearing Dwarf Figs are developed for growing in the North, as they do well in either tubs or out-of-doors; however they cannot be grown successfully outdoors north of Philadelphia. Plants bear the first year they are set out. Fruit is of good size, sweet and delicious. You'll want to be first in your locality to have this entirely different fruit.

Dwarf HANSEN BUSH CHERRY

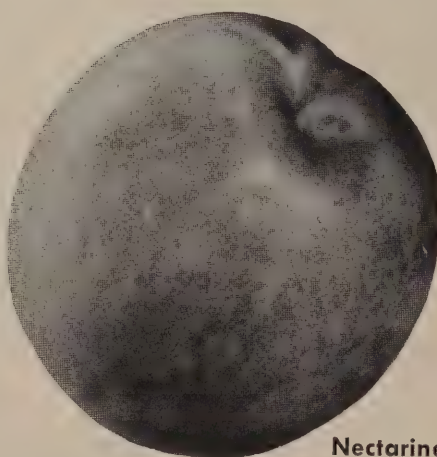

724. Large, glistening black, hybrid bush cherries produced in great quantities on low growing bushes. White blooms in spring make them very ornamental. Foliage is silvery green, turning red in autumn. Fruits are good to eat off the bush or canned. Makes excellent jams and jellies and very tasty sauce. Bushes are very hardy and will thrive in any location without any special care. They bear in cold climates where standard Cherries fail. Trim to any desired shape and size. Bushes grow 3 to 4 feet tall. Plant two or more bushes for perfect pollenization. Plant them in shrub borders or as a hedge; they are a beautiful sight in full bloom, and you will enjoy their bountiful crops for years to come. One of the most beautiful flowering Cherries—a dwarf sensation.

NECTARINES

642. This delicious fruit is a cross between a Peach and Plum. Resemble a Peach in shape, size and flavor. Smooth skin, similar to that of a Plum; many fruit lovers call it the "Fuzzless Peach." Fruit is large, with striking red color, very juicy and delicious. It is freestone and ripens with the Elberta peach. Its habits are similar to the Peach; therefore culture is the same. Excellent for canning or as a fresh fruit. Plant two or more trees for proper pollenization.

Nectarine

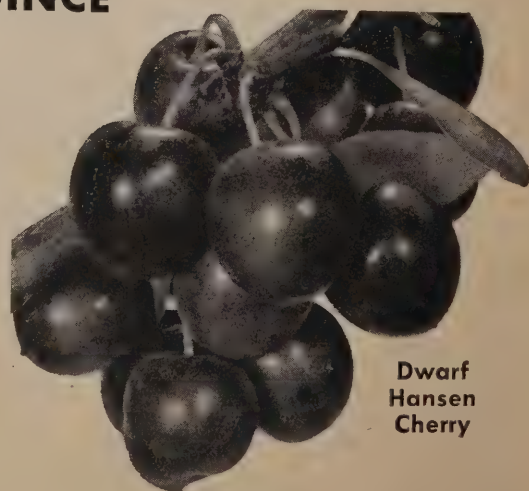

Dwarf ORANGE QUINCE

644. Hardy, dwarf-growing tree that seldom grows more than 8 to 10 feet at maturity. Bears a good crop of delicious fruits every year. Fruit ripens to a clear yellow and is highly desirable for jelly and preserves, dried fruits and baked goods. High in pectin. Trees are very ornamental in spring when branches are covered with shimmering pink blossoms. Hardy in all sections.

NORWAY SPRUCE

1022. Fast growing, tall, stately trees. Dark green, thick, short needles. Most popular and extensively planted for outdoor living Christmas trees. Highly recommended for street and specimen planting. Also good for windbreaks.

SCOTCH PINE

1052. A decorative tree densely covered with dense blue green needles of medium length. The pyramid form gives great character to the tree. Rapid in growth, very hardy. Used for windbreaks, screens, etc.

DOUGLAS FIR

1053. Highly ornamental. Grows in a shapely pyramidal form with beautiful blue-green foliage. Drooping 4½ inch cones add to the tree's attractiveness. Popular Christmas tree.

AUSTRIAN PINE

1048. Here is one of the most dignified evergreen trees, solid in shape due to tightly leaved branches of very dark green. Needles are straight and slender and 4 to 5 inches long.

See Prices Above

Scotch Pine

Norway Spruce

COLORADO BLUE SPRUCE

1020. One of the showiest and most impressive evergreens. Color ranges from deep green to silvery blue-green foliage, depending on the season. Tall growing and perfectly shaped. The trees are grown from select Blue Spruce seed but do not show blue to any extent until trees are 2-3 feet tall.

PLANT THESE STURDY WELL-ROOTED TRANSPLANTED EVERGREENS BABY EVERGREENS

Grow them in your garden for 2 or 3 years before transplanting to permanent landscape location. In a few years they will be worth many times what you paid for them. Use them to control soil erosion. Protect your topsoil, it is vital to continual plant growth.

PYRAMIDAL ARBOR-VITAE. 1040. Narrow, shapely, pyramidal form with green, fanlike foliage. Stands full sun.

GLOBE ARBOR-VITAE. 1030. Globular evergreen. Broad fan shaped leaves.

SAVIN JUNIPER. 1014. Spreading evergreen dense foliage.

PFITZER JUNIPER. 1012. The best in low growing spreading evergreens. Feathery green foliage; very attractive.

FASTIGIATA JUNIPER. 1010. Tall, slender evergreen with silvery green foliage. A hardy and vigorous grower.

MUGHO PINE. 1050. Dwarf evergreen short dark green needles.

SPREADING YEW. 1044. Medium height tree, dark green foliage. Mature specimens bear bright red berries.

UPRIGHT YEW. 1046. The pyramidal type. Excellent for shade. Rich green foliage remains attractive throughout the year.

HICKSI YEW. 1042. Dark green upright evergreen.

EVERGREENS for Lasting Beauty

All Evergreens On This Page Are Field-grown Transplants

Majestic Junipers

PFITZER JUNIPER

1012. One of the best evergreens for use wherever a low-growing tree is desirable. Thrives anywhere. One of the few evergreens that will withstand considerable shade. Blue-green feathery foliage is attractive the year around.

Postpaid	Each	2	4
10-12 in.	\$1.95	\$3.75	\$ 7.25
12-15 in.	2.95	5.65	10.75

BLUE PFITZER

1004. An attractive, spreading evergreen with a blue-colored foliage. Low, spreading habit of growth makes it ideal for lawn specimen and foundation planting. Very hardy and will stand considerable shade. Add one of these attractive evergreens to your collection for color and lasting beauty.

Postpaid	Each	2	4
10-12 in.	\$1.95	\$3.75	\$ 7.25
12-15 in.	2.95	5.65	10.75

FASTIGIATA JUNIPER

1010. Tall, slender evergreen with silvery green foliage. A hardy, vigorous grower. Prefers full sunlight. It beautifully adapts itself for formal use, making excellent accent plants for doorway or garden entrances where height is needed. Its hardiness permits its use in most soils and locations.

Postpaid	Each	2	4
12-15 in.	\$1.95	\$3.75	\$6.95
18-24 in.	2.95	5.75	9.95

ANDORRA JUNIPER

1002. A prostate creeping type very valuable for planting in areas where height is a controlling factor; also good for slopes and border work. No plant will make a more effective ground cover than this one. Silvery-green foliage in the spring and summer, turning beautiful mauve-pink at the first touch of frost.

Postpaid	Each	2	4
10-12 in.	\$1.95	\$3.75	\$ 7.25
12-15 in.	2.95	5.65	10.75

SPREADING YEW

1044. (*Taxus Cuspidata*.) This type yew branches out from the bottom into a low, bushy formation. Fine, dark green foliage. Short branchlets densely produced. Medium height. Can be trimmed to desired height to fit space, or may be sheared for a low hedge. Mature specimens bear bright red berries. Its shape and hardiness make this a valuable evergreen in many locations. One of the most popular evergreens.

Postpaid	Each	2	4
10-12 in.	\$2.25	\$4.25	\$ 7.95
12-15 in.	3.25	6.25	11.95

UPRIGHT YEW

1042. (*Hicksi*.) Upright. Beautiful, shrub-like evergreen of medium height, dense foliage and columnar form. Rich, green foliage. Bright red berries in fall. The fact that it can be closely clipped and is rather slow growing, allows it to be kept in a compact conical shape. Maturity height 5 feet. Valuable in foundation, hedges and specimen plantings. The pleasing green color is kept throughout the year. May be planted in shaded or sunny locations and prefers a moist loam soil.

Spreading Yew

at Low Bargain Prices

COLORADO BLUE SPRUCE

1020. One of the most highly prized evergreens. It grows in symmetrical shape and has bushy branches about the trunk. Tall growing, about 60 feet at maturity and is an ornamental tree of glistening silvery blue-green from early spring to midsummer. The trees are grown from select Blue Spruce seed but do not show blue to any extent until trees are 2-3 feet tall. The variable foliage color is highly decorative and should be used with discretion in foundation plantings. As a specimen tree it is one of the best. It is very hardy and without a doubt one of the finest blue-type evergreen trees.

PYRAMIDAL ARBOR-VITAE

1040. A favorite for entrances. Narrow, shapely, pyramidal form with green, fanlike foliage. One of our leading evergreens, it grows rapidly and is easily trimmed. Most compact and erect of the entire Arbor-Vitae family with a graceful dignity. Stands full sun. Its health and rich green color, even in winter, are much to recommend it and its narrow columnar growth makes it adaptable to many purposes of landscaping design.

HARDY HEDGE PLANTS

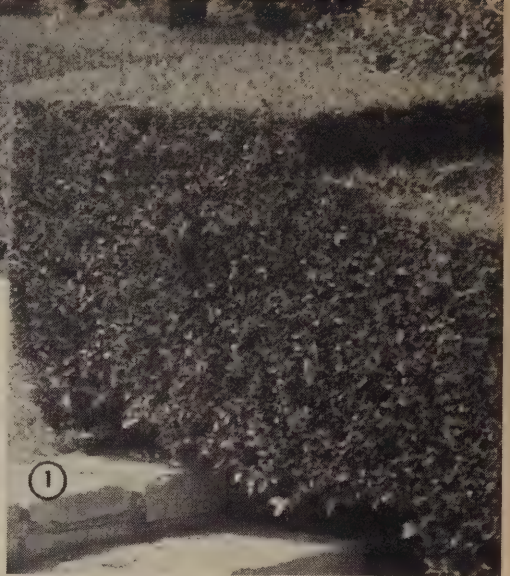

① HARDY PRIVET

(Amoor River North)

1110. Easiest to grow of all Privets. Very hardy; thrives under favorable planting conditions. Makes an attractive hedge in all seasons with its glossy green leaves and clusters of white flowers, followed by berries. Trim to desired height and shape any time during summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For a wider hedge, plant 2 rows, alternating the plants. Well branched, well rooted bushes.

SCARLET FLOWERING QUINCE HEDGE

1120. One of the first shrubs to bloom in Spring. Their brilliant red flowers and shiny foliage place them among the No. 1 plants for Spring bloom. Ultimate height is about 5 to 6 feet. The size of their blooms as well as the quantity in which they are produced is almost unbelievable.

	5	10	25	50
12-18 in.	\$2.25	\$4.25	\$9.75	\$18.75

⑤ Pink Tartarian HONEYSUCKLE

1106. No hardier plant can be found than Honeysuckle. Grows to a height of 8 to 10 feet with upright, somewhat spreading branches. Foliage is bright green. Flowers are borne freely in May and June. Fragrant.

	5	10	25	50
12-18 in.	\$2.10	\$3.95	\$8.95	\$16.95

ROSA MULTIFLORA

A Living Fence For Little Money

1112. Now you can have a natural living fence that will last for years, without expensive upkeep. **Rosa Multiflora** is the amazing new hedge material that garden and farm magazines have written so much about recently. The plants are very hardy; grow rapidly, and in just a few years will make a hedge dense enough to keep all types of animals in their place.

Eliminate expensive repair bills and maintenance costs by planting **Rosa Multiflora** wherever a fence is needed. Easy to grow; thrives under most soils and conditions of weather. Requires no training, pruning or clipping. Grows to a height of 8 feet, blooms each year and is the most practical, decorative planting material that can be used. Plants should be set 12 inches apart. A living fence adds beauty and value to your property. Plant **Rosa Multiflora** this spring.

WINDBREAK

AND SEEDLING SHADE TREE HEDGING

SILVER MAPLE

1170. One of the fastest growing trees and extremely hardy; thrives under all soils and conditions of weather. Has fine, silvery-green foliage. Perfect for the main section of a standard windbreak around farm property.

	10	25	50	100
2-3 ft. trees.....	\$2.50	\$5.50	\$9.50	\$17.50

AMERICAN WHITE BIRCH

1152. Clean, strong growing tree with snowy white bark. Has bright green lustrous foliage; rather bushy, spreading habit of growth. Makes a hardy, fast-growing windbreak. Height 60 feet at maturity.

	10	25	50	100
18-24 in. trees.....	\$3.50	\$7.50	\$12.50	\$21.00

RUSSIAN OLIVE

1153. A fine ornamental with dense, silvery-green foliage. Bears a profusion of fragrant yellow flowers. Branches thickly from the ground up; perfect for hedging, and "snow catch" rows in shelter belts or windbreaks. Plant about 4 feet apart.

	10	25	50	100
18-24 in. trees.....	\$2.50	\$5.50	\$9.50	\$17.50

LOMBARDY POPLAR

1168. This well known tree, well liked everywhere it is grown, is one of the most picturesque as well as useful trees to be found. The rapid growth and general hardiness make this one of the most useful trees for windbreaks, screening hedges and for stately accents along drives and avenues. Trees branch thickly from the ground up, and when planted 3 or 4 feet apart, will provide good protection, or a dense hedge, in 2 or 3 years after planting.

	10	25	50	100
2-3 ft. trees.....	\$2.50	\$5.50	\$9.50	\$17.50

WHITE DOGWOOD

1158. A rare beauty in spring with its large white flowers with an extra row of center petals. In summer the foliage is dark green changing to gorgeous reds in fall. Red berries in fall. Grows to a height of 10 to 15 feet at maturity. May be trimmed as desired. Outstanding among ornamental trees. A Dogwood makes a beautiful lawn or shrub border specimen.

	10	25	50	100
12-18 in. trees.....	\$3.50	\$7.50	\$12.50	\$21.50

HEAVENLY BLUE ALTHEA

Charming New Shrub Althea (Coelstis)

1305. Among the showiest of all flowering shrubs. We are offering this beautiful new introduction — Heavenly Blue. The large, wide-open, flaring flowers, often 3 to 4 inches across, are borne on long stems from July until frost — at a time when few other garden flowers are in bloom and most other shrubs have finished blooming. These are erect growing shrubs of stately and formal shape. Particularly well suited for screens, specimens, in shrub borders and as a colorful hedge. This charming new shrub will grow rapidly and succeed everywhere — even under adverse conditions. Their ultimate height is about 10 feet. The best and most beautiful of the blue Altheas; beautiful contrasting dark green foliage. Its freedom of bloom is outstanding.

	Each	2	4
18-24 in. branched shrubs.....	\$1.50	\$2.75	\$5.25

Broad-Leaf **EVERGREENS**

WILL BEAUTIFY YOUR YARD THE YEAR AROUND!

Hollies

ILEX ROTUNDIFOLIA

1430. A handsome member of the Holly family particularly suited to low plantings such as hedges and foundations. This fine Holly is unsurpassed in beauty or in popularity. They succeed over a wide range of territory and are extensively planted. Hollies are very desirable in all seasons of the year, but especially so at Christmas when the berries are highly colored and at their best. Rotundifolia is a distinct Holly because of its small, rounded, glossy leaves which remind one of Boxwood, very similar to Convexa except leaves are heavier and more ovate. It is evergreen and entirely hardy. 6-8 in. plants, 75c each; 2 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.

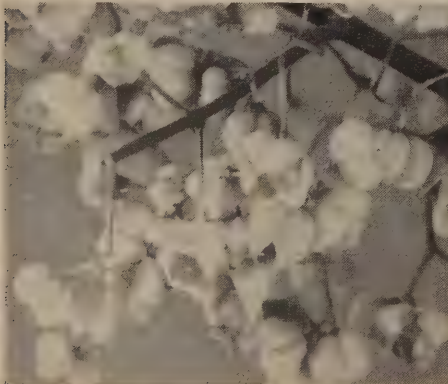

Ilex Rotundifolia

EUONYMUS RADICANS

1440. An upright, broad spreading shrub with rich bright green foliage that remains on the plant year round. Makes a shapely bush 4 to 5 feet tall. Its growth habit and easy culture make this an outstanding shrub for individual specimen planting. A plant that will blend well with your established evergreen plantings. The rigid branches are a perfect sight when carrying the red berries which hang on late in the season. Thrives in sun or partial shade. Be sure to plant one or more in your garden for a brilliant autumn display. Heavy 12-15 in. plants, \$2.75 each; 2 for \$5.25; 4 for \$9.95, postpaid.

EUONYMUS PATENS

1438. This is one of the finest and easiest grown evergreen shrubs. Compact and shapely, growing to a height of about 6 feet tall. Its foliage is rich green remaining on the plant practically throughout the entire winter and is quickly replaced by shiny new foliage in spring. In autumn, numerous Bittersweet orange berries add to its charm. It makes a fine hedge and can be pruned any way to suit. Excellent for growing in shady places, under tall trees or in sunless corners. Use as a specimen plant, background or hedge. Heavy 15-18 in. plants, \$1.45 each; 2 for \$2.75; 4 for \$5.25, postpaid.

Euonymus Patens

ILEX CONVEXA

1431. This is one of the choicest of broad-leaf evergreens. Plant is very bushy, growing about 4 feet high and 3 feet across. The shiny dark green, Boxwood-like foliage is somewhat convex. The glossy leaves are so profuse that the twigs are invisible. Left to itself, it grows informally and blends beautifully with other evergreens; also excellent as an accent plant. Particularly suited for small hedges in cold climates where Boxwood is impossible to grow. Plant 18 inches apart. Very hardy. Prefers alkaline or acid soil and does well in either light shade or full sun. 6-8 in. plants, 75c each; 3 for \$1.40; 5 for \$3.25; 10 for \$6.25; 25 for \$14.50, postpaid.

Euonymus Radicans

PYRACANTHA LALANDI

1434. A most beautiful berried shrub that retains its foliage all winter. Bears attractive large trusses of white flowers during late spring followed by an abundance of brilliant orange-scarlet berries which remain late into the winter. The bush becomes a "mound of flame." A vigorous growing shrub with inch long oval leaves. A marvelous plant for foundation planting where soil is dry. The plants can be trimmed to any desired shape. Blooms in May. Grows 4-6 feet tall. It prefers a warm, well-drained location. 2-yr. field-grown plants, \$1.25 each; 2 for \$2.40; 4 for \$4.50, postpaid.

Ilex Convexa

BOXWOOD

WELLERI. 1436. The hardiest of all Boxwood in cultivation. Whether in the small home-grounds or in a large estate, Boxwood gives an appearance of age and dignity to its surroundings. Welleri has large dark green leaves and is fast growing. Makes a dense hedge quickly, and can be trimmed to any desired height and shape. Will thrive anywhere; in poor soils, in sun or shade or under tall trees and sunless corners. Perfect for low hedges and edging. We cannot recommend this grand plant to you too highly. Heavy 6-8 in. plants, \$1.50 each; 2 for \$2.90; 4 for \$5.50, postpaid.

Pyracantha Lalandi

EVERBLOOMING

Tree Roses

Tree Roses are grown by budding the Rose on a stem trunk 40 inches above the ground, forming a bushy head at the top of this stem. The flowers produced are even larger and finer than those on regular Rose bushes. They bloom from spring until frost. Very effective in the garden, giving their fragrance and beauty at eye-level. We offer only those varieties which bloom freely all season.

PATENTED TREE ROSES

CHRYSLER IMPERIAL. (Plant Pat. No. 1167) 1810. Rich, vivid crimson-red; further enhanced by vibrant overtones of oxblood red.

HELEN TRAUBEL. (Plant Pat. No. 1028) 1808. Color varies — sometimes a light sparkling pink or more often a luminous apricot, even approaching orange at times.

PEACE. (Plant Pat. No. 591) 1812. The ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold to iridescent cream. Petals edged apple-blossom pink.

MOJAVE. (Plant Pat. No. 1176) 1816. Glowing orange shot with flame-like tones of scarlet and vermillion. Very fragrant.

\$6.50 each 2 for \$12.45 Postpaid

HYBRID TEA TREE ROSES

CRIMSON GLORY. 1804. Intense deep, vivid crimson shaded oxblood red and mellowed by a soft velvety nap. The large, well-formed blooms are produced freely until frost.

PICTURE. 1814. Lovely deep pink buds opening to a warm glowing pink with undertones of salmon are produced in abundance. Blooms are borne on long stems. Delightfully fragrant.

ECLIPSE. 1818. Slim tapering buds opening to a brilliant golden yellow. Unquestionably the best all-purpose yellow Rose.

PRESIDENT HOOVER. 1820. Long reddish buds; flame and yellow flowers. Flowers are large and very exquisite. One of the most brilliantly colored Roses.

SMOKE TREE (PURPLE FRINGE)

1398. Huge clusters of misty flowers make this shrub look like a "puff of smoke" when in full bloom. Flowers are long lasting and make a beautiful display during late summer. Ours is the hardy variety that can be grown in the north. Grows 6 to 8 feet tall and 6 feet wide. Marvelous for background planting and as individual specimens. For foliage and flowers, this is the most striking shrub.

GOLDEN CHAIN TREE (Laburnum Vossi)

1264. This is one of the most beautiful low-growing ornamental trees we know of. Flowers of purest golden-yellow are borne in long, graceful clusters 12 to 18 inches long, during spring. Easy to grow; does well in partial shade or full sun. In full bloom, this rare ornamental is a real show-piece and should be included in every garden or landscape plan. Large, clover-shaped foliage make it attractive in all seasons. Very beautiful. Usually blooms the first year after planting. Once planted, it increases in beauty year after year. Plant this glorious tree as a specimen, in shrub borders, etc. Its magnificent display of bloom is a sight never-to-be-forgotten.

PEACE (Plant Pat. No. 591)

1668. Winner of All-America Rose Selections for 1946. The ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. The petals are edged with appleblossom-pink that deepens as the glorious 5 to 6-inch blooms slowly open. The large blooms are carried on heavy, erect stems. Delicate fragrance. Attractive holly-shaped foliage. Hardy and disease resistant. Blooms until frost. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

MIRANDY (Plant Pat. No. 632)

1664. Rich, glamorous, deep crimson blooms open from long, pointed ovoid buds. Blooms are large, very double, with 40 to 50 petals, freely borne on long stems. Excellent foliage is heavy in texture and covers the erect symmetrical branches. Bush is vigorous and sturdy, generally reaching 30 to 36 inches in height. Very penetrating damask fragrance. Especially fine for cutting. Has excellent lasting qualities. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

TIFFANY (Plant Pat. No. 1304)

1672. Beautiful Phlox-pink blooms of outstanding quality. The long pointed buds are deep pink with golden yellow shading at base of petals. The flower opens to perfectly formed, double, high centered blooms. Petals are of heavy texture and exceptionally long lasting qualities. Produced singly on long, strong stems. Noted for its outstanding fragrance. Bush is upright with very vigorous growth and beautiful dark green foliage. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

NEW YORKER (Plant Pat. No. 832)

1666. A truly red Rose. The dark color is clear and sparkling and the flowers are tremendous — often measuring 6½ inches across. The sturdy, upright plants are exceptionally vigorous and grow luxuriantly. Very profuse bloomer — blooms from June until cold weather. Delightful, almost-Raspberry fragrance. Brings forth a wealth of perfect blooms all season long. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

MOJAVE (Plant Pat. No. 1176)

1660. Winner of the only 1954 All-American Award for a hybrid tea. Mojave takes its name from the famous California desert, and the name fits it perfectly because its rich coloring is typical of a desert sunset — glowing orange shot with flame-like tones of scarlet and vermillion. Mojave produces beautiful tapering buds which open to big, pleasantly fragrant, richly colored flowers. **2-yr. No. 1 bushes, \$2.75 each; 3 for \$7.20, postpaid.**

IMPERIAL ROSE OFFER 1625X

1 Chrysler Imperial
1 Mojave
1 Helen Traubel **\$6.75**
all 2-yr. No. 1 bushes Postpaid

HELEN TRAUBEL (Plant Pat. No. 1028)

1658. Unusually long, graceful buds with very large flowers of good form, fine substance and pleasing fragrance. Color varies — sometimes a light sparkling pink or more often a luminous apricot, even approaching orange at times. The plant has proven to be exceedingly vigorous. It is a good grower and free bloomer with excellent foliage and habit. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

DIAMOND JUBILEE (Plant Pat. No. 824)

1654. Glowing buff-orange with a touch of orange-yellow at the base of each petal. Blooms are firm, long-lasting, high-centered and borne on long, graceful stems. Flowers are slow-opening and last exceptionally long. Excellent as a cut flower. Fully double. A very hardy bush that reaches a height of 4 feet. The warmth of color and the old Rose fragrance make Diamond Jubilee the attraction of any garden. Winner of the 1948 All-America Selections Award. **2-yr. No. 1 bushes, \$2.00 each; 3 for \$5.25, postpaid.**

SLEIGH BELLS (Plant Pat. No. 1004)

1670. Large, ovoid buds of white with a trace of primrose at the base of the petals. Borne singly on exceedingly long stems. Flowers open gradually into giant size blooms with 40 or more petals of heavy substance. Blooms are produced very freely; fragrant. Leathery, glossy foliage that is exceptionally disease resistant. Sleigh Bells is the better white Rose you have been looking for. **2-yr. No. 1 bushes, \$2.00 each; 3 for \$5.25, postpaid.**

FORTY-NINER (Plant Pat. No. 792)

1662. One of the most brilliant bi-color Roses ever introduced. The outside of the petals is dazzling chrome-yellow, sometimes overlaid with pink, changing to straw-yellow in the open bloom. The inside of the petals is a vivid-orient-red changing to cherry-red with age. The yellow is most evident in the bud. These glowing colors contrast so vividly, yet harmonize so beautifully. A good grower and free bloomer with excellent foliage and habit. **2-yr. No. 1 bushes, \$2.25 each; 3 for \$6.00, postpaid.**

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

1652. Newest of the red Roses. An exciting, rich, vivid crimson-red. The color is further enhanced by vibrant overtones of dark oxblood red. The buds are long and tapering opening to very large blooms with 40 to 50 wide petals symmetrically arranged and overlapping. The bush is compact with abundant dark green foliage. Blooms continuously from spring to fall. Very free flowering. The 1953 All-America Selections Award Winner. **2-yr. No. 1 bushes, \$2.50 each; 3 for \$6.60, postpaid.**

CLIMBING ROSES

BLAZE EVERBLOOMING

1702. Hardy, everblooming climbing Rose which has very double, well-shaped blazing-red flowers. Blooms are produced in large clusters over a long blooming season. A very vigorous climbing variety, which will grow to considerable height. Makes a magnificent display all season with thousands of 2- to 3-inch blazing-red blooms on just one plant. Hardy and reliable, can be grown all over the country. \$1.50 each; 3 for \$3.95, postpaid.

CLIMBING CHRYSLER IMPERIAL

1710. (EVERBLOOMING) Patent Applied For. A vigorous climber producing masses of vivid flowers. Velvety maroon buds which open to iridescent shades of red, deepening and becoming more brilliant as they fully open. You continue to have an abundance of these lovely Roses all season long. Dark green, disease resistant foliage. A very useful crimson climber, adding beauty to any garden. \$2.75 each; 3 for \$7.20, postpaid.

Climbing Dr. J. H. Nicolas

CLIMBING DR. J. H. NICOLAS

1706. (EVERBLOOMING) Pat. No. 457. Very large, deep rose-pink flowers produced in great profusion in June, then intermittently all summer. Three or four perfect blooms to each long, strong stem. Lovely rich fragrance. Easy to grow, requires very little care. The large 5 to 6 inch blooms are attractive on posts, pillars or among shrubs. \$2.00 each; 3 for \$5.25, postpaid.

CLIMBING GOLD RUSH

1708. (EVERBLOOMING) Handsome yellow flowers produced in abundance. The foliage is glossy and the growth vigorous. Unlike most hardy climbers, it will produce flowers on its new growth. Proven to be one of the best and hardiest yellow climbing roses. Very lovely. Gold Rush produces a big crop of magnificent buds in the spring, and continues throughout the entire growing season. \$1.50 each; 3 for \$3.95, postpaid.

FLORIBUNDA ROSES

Masses of Color for Borders, Beds, Hedges & Gardens

BABY BLAZE. (Plant Pat. No. 1362) 1750. Velvety, cherry-red when opening and a little lighter when finished. The bright color is enhanced by the white eye in the center of the bloom. Flowers are produced in large clusters of 10 to 25 on a shoot. **\$2.00 each; 3 for \$5.25, postpaid.**

FASHION. (Plant Pat. No. 789) 1652. Brilliant, luminous-coral flowers overlaid with gold; enticing "old rose" fragrance. The plant is a mass of exquisite buds and blooms from June until frost. **\$2.00 each; 3 for \$5.25, postpaid.**

MA PERKINS. (Plant Pat. No. 1143) 1660. 1953 All-American Winner! The color is a translucent coral touched with yellow at the base, in the bud stage, then a glowing coral-shell pink in full bloom. You'll want to add this sparkling new beauty to your Rose garden. **\$2.00 each; 3 for \$5.25, postpaid.**

GOLDILOCKS. (Plant Pat. No. 672) 1754. Clear, golden yellow buds resembling Hybrid Teas open slowly into beautifully formed, pure golden-yellow blooms. **\$1.75 each; 3 for \$4.65, postpaid.**

JIMINY CRICKET. (Plant Pat. No. 1346) 1658. Exquisitely formed buds of tangerine-red become a blend of orange and vermilion tones as they open, softening later to coral-pink. Free flowering; fragrant. **\$2.00 each; 3 for \$5.25, postpaid.**

CIRCUS. (Plant Pat. No. 1382) 1751. Buds richly marked red, opening to an ever changing succession of shades and tints of yellow, red, orange and apple-blossom pink. Full-blown blooms are a bright scarlet. **\$2.50 each; 3 for \$6.60, postpaid.**

PINOCCHIO. (Plant Pat. No. 484) 1668. Beautiful buds and flowers produced on long sprays. Color is a rich pink suffused with golden salmon. Exotic fragrance. Bush is hardy and very prolific, producing a mass of buds and flowers all season long. **\$1.75 each; 3 for \$4.65, postpaid.**

RED PINOCCHIO. (Plant Pat. No. 812) 1676. Buds and open flowers are a rich carmine which deepens and acquires a velvety cast; the glowing color lasting until the flowers wither and fall. The 3½-inch flowers are borne in large clusters. **\$1.75 each; 3 for \$4.65, postpaid.**

RED CAP. (Plant Pat. No. 1292) 1774. Clusters of fiery red blooms. The wavy-petaled flowers open bright vermilion, gradually deepening to rich velvety crimson. Blooms large, and long lasting. Very vigorous, compact bush. **\$2.00 each; 3 for \$5.25, postpaid.**

WHITE BOUQUET. (Plant Pat. No. 1415) 1778. Sparkling 4 to 5-inch white blooms. The flowers are gardenia-like. As the center petals separate and open, the lush white blooms show a small circle of golden yellow stamens in the center. Sweet spicy fragrance. **\$2.50 each; 3 for \$6.60, postpaid.**

Baby Blaze Floribunda

GRANDIFLORA ROSES

BUCCANEER. (Plant Pat. No. 1119) 1773. Brilliant, sparkling blooms of clear sunshiny yellow. The long, slender, tapering buds open to cupped flowers with about 30 petals. Moderate tea fragrance. Plant reaches a height of about 5 to 6 feet. **\$2.50 each; 3 for \$6.60, postpaid.**

CARROUSEL. (Plant Pat. No. 1066) 1772. A new vivid red Grandiflora. Will not blue from aging. The fully opened flower is about 3 to 4 inches across. Foliage is excellent and disease resistant. The high-centered blooms have excellent keeping qualities as cut flowers. **\$2.00 each; 3 for \$5.25, postpaid.**

QUEEN ELIZABETH. (Plant Pat. No. 1259) 1776. A 1955 All-America Winner! Breath-taking blooms of delicate pink. Flowers combine the magnificent qualities of hybrid teas with the sturdy, free-flowering habit of floribundas. The color is a subtle blending of carmine-rose and dawn-pink. **\$2.50 each; 3 for \$6.60, postpaid.**

MONTEZUMA. (Plant Pat. No. 1383) 1781. Splashing scarlet-orange, changing to a lighter even more radiant salmon-orange in warm weather. Plants bear an abundance of splendor, well-formed buds, the high-centered blooms are exceptionally large. Big, glossy foliage cover the plant. **\$2.75 each; 3 for \$7.20, postpaid.**

POMO - GREEN

The All Purpose Rose Spray
KEEP YOUR ROSES BEAUTIFUL

78. New Pomo-Green is a combined insecticide and sulphur fungicide, green in color; easily applied and quick acting. It can be dusted or sprayed and leaves no unsightly residue when used as directed. Pomo-Green is recommended for the control of the dreaded black spot and powdery mildew, well known to Rose growers; also chewing and sucking insects on Roses, Delphiniums, Phlox and many other ornamental plants.

MODERN FAVORITES

EVERBLOOMING HYBRID TEA ROSES

CRIMSON GLORY. 1606. Well formed flowers of an intense, deep vivid crimson shaded oxblood-red and mellowed by a soft velvety nap are produced in abundance all season. The plants branch freely, producing a well spread, yet compact bush of good symmetry. Bush vigorous and free flowering. Excellent foliage and habit.

THE DOCTOR. 1626. Sparkling pink, pointed buds. This is one of the largest of all blooms — 5 to 6 inches across. The color is a uniform silvery pink in both bud and open flower. Healthy, vigorous plants. While not an unusually free bloomer, The Doctor will produce enough flowers to satisfy your expectations.

K. A. VICTORIA. 1612. Considered one of the best white roses of all because it blooms so freely and continuously no matter what the weather. The lovely snow-white buds open to magnificent, high-centered, fully double flowers of pure ivory-white. Very fragrant, perfectly formed flowers on long graceful stems.

MRS. SAM MCGREDY. 1621. A wonderful rose of beautiful copper-orange in color, heavily flushed with red. Buds are long-pointed and sweetly fragrant, unfolding slowly into richly colored high-centered flowers. Beautiful bronzy-green foliage covers the low, robust and many-branched plant.

MCGREDY SCARLET. 1623. A vigorous growing bush which produces a continuous succession of huge, high-centered flowers of a dazzling scarlet. Blooms are delightfully fragrant and long lasting. Plants are upright, moderate in growth and produce a profusion of bloom all season.

BLACK KNIGHT. 1602. Large, ovoid buds open to deep, rich dark red blooms with black shadings. The plant is vigorous and free-blooming. Excellent foliage and habit. Flowers are borne on long stems with excellent lasting qualities, making them excellent for cutting.

ECLIPSE. 1608. Unquestionably the best all-purpose yellow Rose. The slim tapering buds open into brilliant golden yellow 3 to 4 inch blooms. The plants produce fresh new buds as fast as the old ones open. Blooms almost continuously all season. The plant has rich, heavy attractive foliage. The flowers are borne on long, erect stems, suitable for cutting.

BETTY UPRICHARD. 1603. A large bicolor rose with rolled petal edges. The outside of the petals is a deep carmine and the inside silvery salmon. Buds are long and pointed with a very spicy fragrance. The flowers have about 20 petals. Foliage is glossy, dark green. A very fine garden plant that blooms freely and continuously all season long.

POINSETTIA. This free-flowering rose will bring you the brilliance and glowing red color of the Christmas Poinsettia. A true poinsettia-red of velvety texture and non-fading color. Buds are long, pointed and perfectly formed. A free-flowering variety that will give you brilliant color and beauty, both in garden and as a cut flower.

EDITOR McFARLAND. 1610. Richly fragrant flowers of clear, brilliant pink. Especially noted for its perfection of form and remarkable long-lasting qualities. Healthy, vigorous plants; free blooming; strong stems. One of the best cut flowers. A favorite for its color and perfection of bloom.

DUQUESA De PENARANDA. 1613. The long, pointed buds are a blend of apricot-orange and dark pink, opening into splendid blooms of coppery apricot. Begins blooming early in the season and continues generously throughout the entire season. Sweetly perfumed. The bush is strong and healthy producing the blooms on long cutting stems. One of the loveliest roses for cutting because of its long-lasting qualities.

PRESIDENT HOOVER. 1624. One of the most brilliantly colored roses. A glorious combination of cerise-toned orange, scarlet and yellow. Long, reddish buds; flame and yellow flowers. Flowers are large and very exquisite. Richly fragrant and free blooming. Plants are tall, upright in growth, with blooms borne on long stems. The clean, handsome foliage is an added attraction.

**Climbing
Hardy**

VINES

**Colorful
Decorative**

Boston Ivy

BOSTON IVY

(*Ampelopsis Veitchii*)

1510. The best known and most popular of climbing plants. Very attractive, 3-lobed glossy green leaves. A rapid grower after established; clings to any surface. Will thrive in sunny or shady locations. Foliage turns scarlet in the fall. Valuable for wall coverings, tree trunks and posts. **2-yr., field-grown vine, 90c each; 2 for \$1.75; 4 for \$3.40, postpaid.**

Evergreen Bittersweet

Everblooming **GOLDFLAME** Honeysuckle

1516. Beautiful flower clusters as large as your hand, cover the vines from June until frost. Curved petals and long stamens; brilliant rose-red outside and gold inside. Lovely for cutting. May be trimmed as vine, shrub or low hedge. Blooms profusely year after year; requires little care. **2-yr., field-grown plants, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.**

HALL'S Fragrant Honeysuckle

1518. Dainty yellow and white blossoms intermingled, produce a beautiful effect all summer. One of the most fragrant of all Honeysuckles. Vines are hardy, vigorous growers; ideal for covering unsightly buildings, screening out undesirable views and softening harsh fence lines. **2-yr., field-grown plants, 75c each; 2 for \$1.45; 4 for \$2.75, postpaid.**

Silver Lace Vine

Gold Flame Honeysuckle

SILVER LACE VINE

1520. Looks like a picture in a fairy-tale book with its myriads of snowy-white clusters of dainty blossoms. Blooms from summer until fall and is one of the fastest growing vines. The foliage is perfectly clean; insects do not bother it. Prefers a sunny location. Will grow 15 to 20 feet the first year after planting; clings to any support. Used extensively for covering unsightly buildings, barns and walls. **2-yr., field-grown, 90c each; 2 for \$1.75; 4 for \$3.40, postpaid.**

EVERGREEN BITTERSWEET

1514. (*Euonymus Radicans Vegetus.*) A strong growing variety. Dark green firm leaves last through the winter and form an excellent background. Bears clusters of large red Bittersweet berries, which make good winter bouquets when dried. Will climb either brick or wood. Also adaptable as a shrub or as a ground cover. It is a valuable plant for shady places where a delicate evergreen is needed. **2-yr., field-grown, \$1.10 each; 2 for \$2.10; 4 for \$3.95, postpaid.**

ENGLISH IVY (Green All Winter)

1512. A lovely vine as well as a splendid ground cover. The leaves are small and grow close together making a solid mass of dense, rich, glossy evergreen foliage. Foliage remains green all winter. It has many uses, from covering walls, rocks, tree trunks, and trellises to carpeting bare spots in shady places and edging beds and borders. Famous for long life. Mass effect can be created by planting 2 to 3 feet apart. **2 1/4 in. Pot Plants, 50c each; 5 for \$2.25; 10 for \$4.25; 25 for \$9.25; 50 for \$17.50, postpaid.**

Evergreen **GROUND COVERS** FINE FOR SHADE

PACHYSANDRA TERMINALIS

1528. A trailing plant with beautiful waxy green leaves that stay green all winter. One of the most valuable plants for use in densely shaded areas where grass will not grow, and the only plant that will thrive under pine trees. Plants make a dense growth and spread out rapidly and should be set 1 to 2 feet apart. Makes a beautiful low hedge for bordering walks and drives, and a splendid covering for steep banks, ravines and terraces. **5 for \$1.00; 10 for \$1.95; 25 for \$4.25; 50 for \$7.95; 100 for \$15.50, postpaid.**

VINCA MINOR — MYRTLE

1526. Attractive, glossy green leaves and lovely violet-blue flowers make a very showy and effective ground cover. Used extensively under shrubs and trees and on graves; in fact, in any shaded areas where other plants will not grow. A trailing plant that spreads rapidly and makes a dense, compact growth. Plants are hardy and trouble free; will thrive in sun or shade. Suitable for edgings to shrub borders, along wooded paths, etc. **5 for \$1.10; 10 for \$2.10; 25 for \$4.75; 50 for \$8.50; 100 for \$16.50, postpaid.**

TREE PEONIES

Truly the King of the Flowers in both size and beauty. Tree Peonies are a low, many branched shrub, growing to a height of 5 to 6 feet tall. Nothing can compare with its king-size blossoms. The flowers, which often measure 10 to 12 inches across, can be had in a variety of colors. Their texture is as fine as silk and they have a very pleasing fragrance. The stately trees are simply "loaded" with hundreds of blooms.

Tree Peonies are very hardy, long lived and disease resistant. Grow well in any climate with any good, well drained garden soil being satisfactory. Need very little care.

Now at last you can have Tree Peonies at a price never before dreamed of. We offer the following colors: Red, 2552; Pink, 2554; Purple, 2556; White, 2558.

Fancy-Leaved CALADIUMS →

Plant now for all summer bloom. Fancy-leaved Caladiums are now being grown in large quantities in the garden. Nothing is simpler to grow and nothing gives you a more beautiful mass of color. The magnificent large leaves of the Caladium, with their brilliant and interesting color variations, produce a truly stunning effect wherever grown, and for table decorations they are unequalled. Bulbs started in January and February in the house make showy plants for Easter and Mother's Day, or plant in the garden in April or May for a continuous foliage display from late spring until frost. Dig up bulbs in fall and use again next spring. Plant in full sun or light shade where they will perform satisfactorily all summer.

CANDIDUM. 2740. Snow-white leaves with green veins and network; narrow green border.

RED FLARE. 2742 Dwarf growing. Large red center, green border.

LORD DERBY. 2744. Transparent rose; dark green ribs, green edge.

50c each; 3 for \$1.35; 6 for \$2.50, postpaid.

RED WEIGELA

← (Cardinal Shrub)

1426. In May and June the bush is completely covered with trumpet-shaped flowers from top to bottom with scattered blossoms throughout the entire season. If flowers are cut off, they will bloom even more freely than if left on. The flowers, which are 1 to 1 1/4 inches across, are rosy-red. Makes a shapely bush 6 feet or so tall with attractive rich green foliage. It is easy to grow, requiring no particular soil. Thrives in full sun or part shade. It is a very desirable variety and can be used either as a specimen or in group plantings.

PIGMY RED LEAF BARBERRY

Dwarf Growing

1326. New, low-growing plant that is perfect wherever rich color accents are desirable. Plants grow 8 to 12 inches tall and 15 to 24 inches across. The leaves are a lustrous, bronzy-red, and provide a sparkling color contrast to evergreen and shrub plantings. May be used along walks and for low borders. The brilliant red coloring is best when plants are grown in full sun. Be first in your locality to have this new introduction. Order today.

Ornamental **SHRUBS** **RED BARBERRY**

1104. This beautiful Barberry, valued for its brilliant red leaves, holds its rich color all summer and fall. Red berries remain through the winter. Makes a fine color contrast among evergreens. As a complete hedge it is gorgeously colorful; also good for group plantings and corners. Plant 18 inches apart in sunny location. Sturdy, well-branched bushes. Rust-proof variety. Grows about 3 ft. high. **Heavy 2-Yr., Field-grown Specimen Plants.**

BUDDLEIA

Butterfly Bush or Summer Lilac

No other perennial or shrub gives such a brilliant lasting display of color so soon after planting. These bushes grow 4 to 5 feet this summer and bloom from mid-summer to late fall. Attracts rare butterflies. Cut off tops each fall. New tops grow each year and bloom on the new wood. Plant 3 to 5 feet apart. No special soil needed. Easy to grow, require little care.

ROYAL RED. 1336. Newest of the brilliant tones. Deep wine-red color; makes striking bouquets.

DUBONNET. 1332. Magnificent 12-inch flower spikes of glowing Dubonnet-red, produced in abundance.

ILE DE FRANCE. 1334. A favorite deep purple. Bushes grow 4 to 5 feet high; a real beauty in full bloom.

CHARMING. 1330. Delicate pink flowers on elegantly long spikes. Makes a bushy growth, about 5 feet tall.

• 40 • Pink Flowering Almond

ABELIA GRANDIFLORA

1302. A beautiful shrub that remains attractive most of the year. The plant bears a continuous supply of pink and white flowers from early summer until frost. Foliage is glossy, looking as though it had been waxed. Leaves are practically evergreen. Grows to about 5 feet at maturity. Recommended for borders, in groups or alone. Can be used as a hedge in sunny or partly shaded areas. In cold climates, we suggest planting in a protected area. A grand, showy shrub that will provide a spot of color wherever it is planted.

Scarlet Flowering Quince

Cotoneaster

Dwarf Crimson Spirea

HYPERICUM (St. Johns Wort)

Hidcote Variety

1378. From a famous estate in England comes this new variety. It grows into a twiggy shrub about 36 inches tall and about 18 inches in diameter. Throughout the summer it is covered with waxy golden yellow cup-like flowers in a grand mass display. The flowers, which are about 2 inches in diameter, appear in late June and continue blooming until mid-October when shrub blooms are scarce. Very fragrant. In colder climates, the shrub freezes back to the ground, but springs up from the base each summer to produce its masses of brilliant blooms. It likes light, well drained soil and blooms longer in partial shade. We recommend this highly as being one of the best low-growing bushes.

Hydrangea P. G.

Hydrangea A. G.

Tamarix Rubra

• 42 • Forsythia Spring Glory

HYDRANGEA P. G.

1372. One of the showiest shrubs in cultivation. Immense, cone-shaped blooms of white appear in early summer turning to shades of pink and bronze as the season progresses. Grows 4 to 6 feet tall, blooming from mid-summer until frost. Thrives in sun or shade. Hardy everywhere. Fine for cutting, lasting a long time. A real beauty wherever planted.

HYDRANGEA A. G.

1370. An upright shrub growing to a height of 3 to 4 feet with large, attractive heart-shaped leaves. Huge flowerheads of pure white are borne in early summer lasting until fall. It is an excellent shrub for foundation and border planting. Does well in either sun or shade. Perfectly hardy, thrives everywhere. A garden standout!

BEAUTY BUSH

1328. Handsome, flowering shrub, upright in growth. In June, masses of bell-shaped pink flowers completely cover the graceful, arching branches of this charming shrub. Blooms are delightfully fragrant. Grows 6 to 8 feet tall in ordinary soil in either sun or partial shade. Has excellent foliage.

WHITE SNOWBERRY

1404. Large clusters of attractive, waxy white berries remain on the shrub through most of the winter. Pink flowers bloom during summer; lustrous green foliage. Grows 3 to 4 feet tall. Is very showy and exceeds everywhere. Does well in shade.

TAMARIX RUBRA

1416. Deep pink flower spikes, 12 to 18 inches long, and delicate green foliage produce a charming lacy effect. Blooms all summer. Flowers and foliage are lovely for cutting. Grows 10 to 12 inches tall. Unsurpassed for screen or background. Thrives in sun or partial shade and any ordinary soil.

PERSIAN LILAC

1390. A dwarf variety with slender, arching branches tipped with large loose cluster of fragrant purple flowers. A more profuse bloomer than the common variety. Can be used to advantage in groups, masses or in the foreground of taller growing shrubs. Their beauty and sweet fragrance are known by all.

CALYCANTHUS (Sweet Shrub)

1340. Commonly called Sweet Shrub or the Strawberry Shrub. The handsome, bronze-chocolate flowers are produced in June and are most entrancing because of their spicy fragrance. Odd looking pods develop later which are filled with brown, aromatic seeds. During the summer, the plant is neat and very handsome with its clean, glossy, corrugated foliage. This large leaved shrub thrives in either shade or sun and grows to a height of 4 to 6 feet tall. Frequently included in borders for its clean, shiny leaves.

FORSYTHIA SPRING GLORY

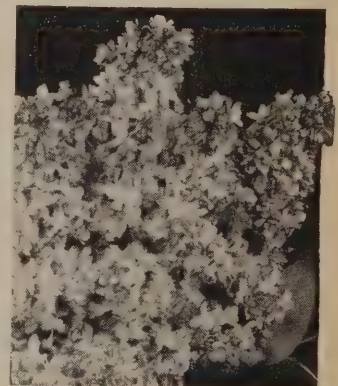

1360. A spectacular new Forsythia which bears large, pale yellow flowers which completely cover the branches in early spring before the leaves appear. Canes grow erect with gracefully drooping tips. Glossy green foliage. Hardy in all sections of the country and thrives in all soils. Grows 5 to 6 feet tall. A brilliant Forsythia which is a magnificent sight when mature and in full bloom. If you desire a sparkling and cheerful display in your garden in early spring, try a planting.

RHODODENDRONS

Excellent New Hardy Hybrids

One of the most elegant native plants. The Rhododendron is always a thing of beauty and if reasonable care is used in growing them, they are perfectly adaptable for use in most sections of the country for landscape work and foundation plantings. These hybrid varieties will provide a luxurious appearance when matured. Foliage is large, rich, glossy green and stays that way the year around. They make a most effective display when planted in masses combining all colors for contrast and interest. These hybrid Rhododendrons do not require shade, in fact, they will do just as well in full sun with some shade needed in the South where the sun is extremely hot. They are easy to grow, but do prefer a loamy acid soil — a soil rich in organic matter. Rhododendrons have exquisite blossoms and luxuriant foliage rewarding you with lifetime beauty. These hardy hybrids are perfectly adapted for landscaping, excellent for shady spots.

LARGE FLOWERING HYBRID RHODODENDRONS

VIRGINALIS SNOWFLAKE

(Double Mock Orange)

1420. Lovely double and semi-double flowers, pure white with golden stamens are borne in large clusters; have a delightful delicate fragrance. Blooms freely in June and July and occasionally thereafter. Shrub grows 6 ft. tall; good upright habit; thrives in sun or partial shade, ordinary soil and moisture. Bright green foliage. May be trimmed as desired. 2-yr Field-grown Plants.

Postpaid Prices	Each	2	4

18-24 in.	1.10	2.10	3.95
2-3 ft.	1.65	3.20	5.95

GOLDEN SYRINGA

(Golden Mock Orange)

1414. Always a "showy" shrub because of its all-season golden yellow foliage. Flowers are intensely white, with a fragrance which is delightful and delicate. Grows to a height of 4 to 5 feet, and is not fussy about location — doing well in smoky and dusty places. We recommend that this fine plant should be in every garden. There just isn't anything like it. 12-15 in. plants, \$1.50 each; 2 for \$2.85, postpaid.

FORSYTHIA

(LYNWOOD GOLD)

1356. This beautiful new Forsythia originated in Ireland. The branches are erect and covered with golden yellow flowers from top to bottom. The flowers of Lynwood Gold are not only borne more profusely, but the individual blooms are better and fuller in form as well as of greater substance. Ultimate height 5 to 7 feet depending on conditions. It is superb for cutting and flowering in the house during the winter months. For a magnificent show in spring there is nothing like Lynwood Gold Forsythia.

2-yr. Field-Grown Plants

← VIBURNUM BURKWOODI

1418. This Viburnum variety brings you the hardiness, rapid growth, beautiful foliage and general dependability of the family, plus a new loveliness of bloom. The blooms are **Gardenia scented** and are borne in ball-like masses of waxy, bluish-white. Their rich fragrance will envelop your whole lawn in the evening. Shiny, dark green foliage is attractive all summer. Grows 3 to 4 feet tall at maturity. Plant in well-drained location with plenty of moisture. This shrub will also thrive in sunless and smoky places. Burkwoodi is the real aristocrat among the Viburnums. 2-year field grown plants.

FRENCH Lilacs

HYBRID COLORFUL — FRAGRANT DOUBLE FLOWERS

These gorgeous French-type hybrid Lilacs will add lasting beauty and distinction to your landscape planting. They bear remarkably large flower panicles, 8 to 12 inches long, thickly massed with single and double florets; richly fragrant. The colors are exquisite.

French Lilacs make compact, shapely bushes. They do not sucker, but bear loads of flowers every spring. Desirable for lawn specimens, in corner groups, mixed shrub plantings and for Lilac hedges. Plant 5 feet apart; trim as desired. Your choice of colors: 1384, Red; 1386, White; 1380, Blue; 1382, Pink. Postpaid.

AZALEA MOLLIS

Gorgeously colored aristocrats! Clusters of large, waxen blooms completely cover the 3 to 4 foot, graceful shrub in May and June. This unusual, hardy shrub offers many possibilities for enlivening your garden with sparkling color. Use them for color accents in the foreground of shrub border or foundation planting; in groups for bold color effects.

Can be grown either in full sun or in the shade (prefer light shade in the South). Use soil generously mixed with leaf mold and acid peat. Each fall a top dressing of well rotted stable manure will induce finer blooms. Water freely in dry weather. Do not cultivate.

Choice of colors: 1314, Orange; 1316, Red; 1318, Salmon; 1320, Yellow.

Postpaid	Each	2	4
10-12 in. bushy blooming-age plants.....	\$1.95	\$3.75	\$7.25

American Holly

ILEX OPACA

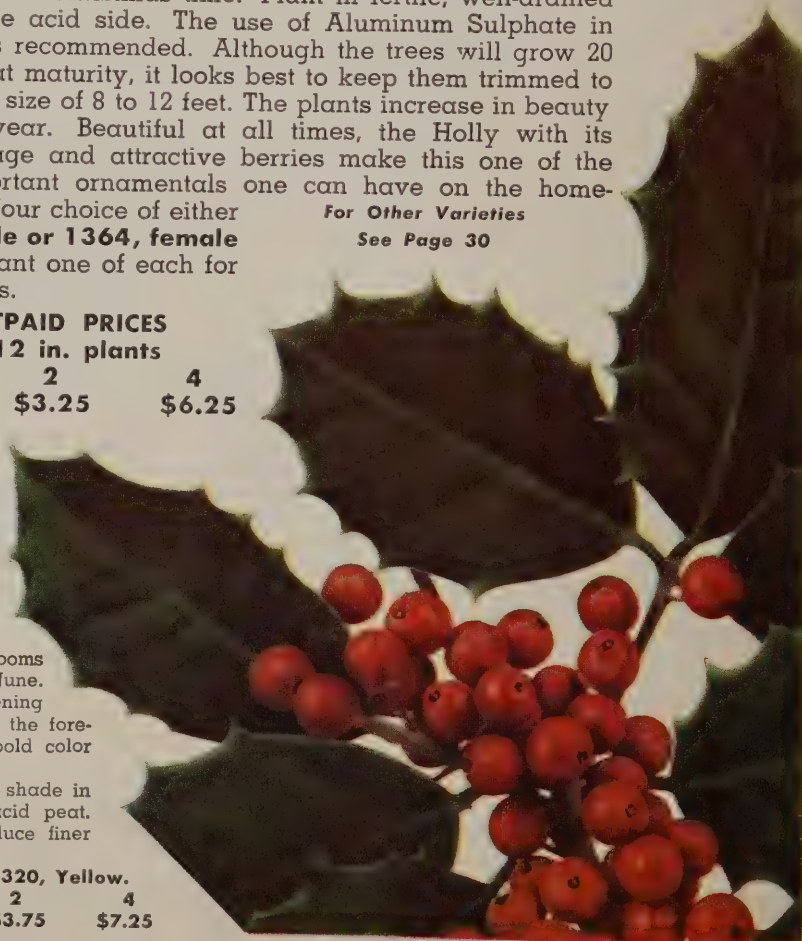

By far the most famous of the Holly family. A broad-leaf evergreen tree which has been acclimated to northern states. A moderate grower with spreading short branches tapering upwards to a narrow head. Broad, oak-like shiny leaves with spiny teeth. Tree is covered with berries in fall which remain on branches nearly all winter. These berries appear to great advantage at Christmas time. Plant in fertile, well-drained soil, on the acid side. The use of Aluminum Sulphate in planting is recommended. Although the trees will grow 20 to 25 tall at maturity, it looks best to keep them trimmed to a compact size of 8 to 12 feet. The plants increase in beauty year by year. Beautiful at all times, the Holly with its shiny foliage and attractive berries make this one of the most important ornamentals one can have on the home-grounds. Your choice of either 1366, male or 1364, female plants. Plant one of each for best results.

TROPICAL and NOVELTY FRUIT

Dwarf Wonder Lemon

DWARF WONDER LEMON

2872. Sometimes offered as Ponderosa Lemon. The most unusual plant ever offered for indoor culture. During the blooming season, several times a year, the plants are covered with fragrant, waxy-white flowers, followed by large lemons of excellent quality. 2 1/4 in. Pot Plants, \$1.10 each; 2 for \$2.10, postpaid.

DWARF TANGERINE

2876. An exciting new plant that you will want to add to your collection. Small, deep-orange fruits, glossy green foliage and dainty, fragrant blossoms make this unique house plant an attraction the year around. 2 1/4 in. Pot Plants, \$1.10 each; 2 for \$2.10, postpaid.

Dwarf Tangerine

JUNEBERRY

740. Delicious, wine-red berries produced in great abundance in June; excellent for jams and jelly. The shrub is one of the earliest to bloom in spring and is a breath-taking sight with its long, graceful racemes of delicate white blossoms. The silvery foliage, appearing after the flowers, make a fine contrast among other shrubs. The berries attract many species of birds. 18-24 in., 2-yr. Fieldgrown Plants, \$1.20 each; 2 for \$2.30; 4 for \$4.40, postpaid.

Juneberry

PERSIMMONS

742. You will enjoy the delicious, bright golden-orange fruits of this hardy and very ornamental tree for years to come. Sweet as honey, with a rich spicy flavor; highly prized for preserves and jelly. 2-3 ft., 2-yr. Fieldgrown Plants, \$1.20 each; 2 for \$2.30; 4 for \$4.40, postpaid.

Persimmon

THE MIRACLE PLANT FOOD DEVELOP ROOTS THIS FALL

RA-PID-GRO

Fall Root Development is Very Important
To Spring Blooming Bulbs and Plants

82. Ra-pid-gro is so easily prepared for use. Just add water at the rate of 1 pound of Ra-pid-gro to 22 gallons of water. Allow to dissolve and it's ready for use. Apply around the plants according to directions on the bag. For use on small numbers of plants, mix at the rate of a teaspoonful to a quart of water. Also very valuable for use when transplanting. Dip plants in solution for 3 or 4 minutes.

Stop Expensive and Tragic Transplanting Losses

By using a large tub or pail and mixing Ra-pid-gro with water at the rate of 22 gallons of water to 1 pound, you have a solution in which to dip the roots of the plants before setting out. If this is done, you will practically eliminate transplanting losses. Trees, shrubs, roses, evergreens, and similar plants should be set in the solution 3 to 4 minutes. Berry plants 1 minute. Vegetable and house plants just dip and remove. Grass and vegetable seeds should be sprinkled with Ra-pid-gro before sowing. Use the solution for watering after setting out plants or sowing seed.

Tri-Con Ra-Pid-Gro Dispenser

88. Now you can apply Ra-Pid-Gro this quick, clean, safe and more effective way. Tri-Con unit dissolves fertilizer right in the Jar, then in liquid form injects it into main stream at proper ratio of fertilizer to each gallon of water discharged. Unit connects directly to garden hose. Trigger controlled valve shuts water off at will. \$5.95, postpaid. No Discount.

ALUMINUM SULPHATE

BLUEBERRY, RHODODENDRON, AZALEA
and BLUE HYDRANGEA FOOD

52. Since all of these acid loving plants are so unusual in their food demands regular fertilizers are not enough. Most fertilizers contain an excess of nitrogen and tend to force soft growth. These acid loving plants should have soil as near like natural wooded soil as possible. Mulch with leaves, grass clippings, humus, peat moss, etc.

If soil is not acid, the most reliable method is to water plants several times, at two-week intervals, during the early part of the growing season by adding 3 ounces of Aluminum Sulphate to one gallon of water for an average size plant. Apply every two weeks. Keep ground moist.

Yellow Humbert Canna

GIANT CANNAS

THE PRESIDENT. 2360. The flowers are large and well developed, of a bright glowing red. It is a free bloomer and makes an excellent showing from early summer until frost. Handsome and ornamental dark green foliage.

CITY OF PORTLAND. 2352. The flowers are rounded, the trusses nicely formed, the petals broad. The color is a bright glowing pink. It is particularly lovely with its rich, green foliage.

YELLOW HUMBERT. 2358. Large, showy blooms of golden yellow heavily flecked with red. The flower clusters are superb and show handsomely above the rich, green leaves.

KING HUMBERT. 2356. The bold, brilliant scarlet-orange blooms are of excellent size and quality. Purple-bronze foliage. A striking contrast, making an excellent show all summer.
5 for \$1.00; 10 for \$1.95; 20 for \$3.40; 30 for \$4.65, postpaid.

LILY-OF-THE-VALLEY

2064. Everyone loves these delightfully fragrant white flowers. The exquisite, tiny waxy-white, bell-shaped blossoms hang from bold, strong 10-inch stems. Attractive green foliage is ornamental all season. Plants are prolific growers and spread rapidly. It reasonably taken care of, a bed of them will produce beautiful flowers in abundance for a lifetime. They thrive in either sun or shade, wet or dry. 3 for 60c; 6 for \$1.00; 12 for \$1.75, postpaid.

CALLA LILIES

A delightful and unusual summer-flowering bulb for your garden. Tall, stately plants with beautiful trumpet-shaped flowers, that you will grow with pride and pleasure.

PINK CALLA. (Rehmanni) 2730. The pink or rose Calla. Sweetly scented. A rare species of the Calla lily family.

YELLOW CALLA. (Elliottiana) 2732. Deep golden yellow flowers are produced in abundance. Green foliage spotted white.

ASTILBE

A brilliantly colored perennial with attractive, branched, feathery flower heads. This is one of the easiest Perennials to grow, as it is not particular as to soil. In June and July, exquisite 18-20 inch long, plummy wands of feathery character and brilliant coloring appear. As roots age, stems become more and more numerous and more flower plumes appear. Plant in full sun or in semi-shade. Blooms last over a long period, providing a vivid splash of unusual color in the garden. Specify color wanted.

FANAL. 2018. A feathery spike of intense, rich red. Blooms last over a long period.

GLADSTONE. 2017. Lovely pure white, strong growing and free flowering.

PEACH BLOSSOM. 2019. Beautiful dense, feathery plumes of light rose.
75c each; 3 for \$1.95, postpaid.

GLOXINIAS →

No other flower can equal their beauty! These brilliantly colored flowers can be grown by anyone. The plants are easily grown in pots or can be planted outdoors in warm weather, preferably in a semi-shaded spot. The huge, velvety flowers make a handsome show and last for months. Blooms are trumpet-shaped with soft green leaves. The bulbs may be planted from February until late May for a succession of flowers.

COLORS:

Etoile de Feu. 2850. Scarlet.

Emperor Frederick. 2852. Scarlet with white border.

Queen Wilhelmina. 2858. Pink and violet.

Emperor William. 2856. Violet bordered white.

Violacea. 2854. Blue and violet.
35c each; 5 for \$1.50; 10 for \$2.85, postpaid.

BLEEDING HEART (Dicentra Spectabilis)

One of the loveliest of the spring flowering plants. Bears numerous rosy-red, heart-shaped, pendant flowers on long, arching stems. Plants are hardy and bloom over a long period. Its ornamental foliage makes this perennial desirable both for borders as well as interior decoration. Bleeding Heart was a great favorite in generations past and still very popular. You will enjoy its graceful beauty in the perennial border and in charming floral arrangements. Try a planting this spring.

Euonymus - Burning Bush

EUONYMUS BURNING BUSH

(*Euonymus Alatus Compactus*)

1338. A very unusual shrub that attracts attention whenever seen. Produces small yellow flowers in spring, followed by red fruits. Oval-shaped green leaves turn a brilliant coppery crimson tinged rose, in the fall. Has an unusual corky bark. Will thrive in partial shade or full sun. Its compact growth and easy culture make it one of the outstanding shrubs for single specimens on the lawn, in the shrub border or among evergreens. For a brilliant autumn foliage display, be sure to plant one or more of them in your garden or yard.

CRAPE MYRTLE

The plant which is so much a part of southern beauty is now available in hardy form for those of us in more northern climates. It dies down to the ground each winter in the north, but throws up new shoots each spring and flowers in the summer. It has attractive flowers with fringed petals in panicles. The foliage is glossy deep green and its beautiful large flower heads bloom over a long period in the hot summer months when flowers are so welcome. If you want a real thrill in plants, we recommend this one. Will grow in any good garden soil. Prefers full sun. Plant 3 feet apart for borders. Choice of colors: 1352 Watermelon Red, 1348 Coral Pink and 1350 Royal Purple. 18-24 in. 2-yr. Field-grown bushes, \$1.00 each; 2 for \$1.95; 4 for \$3.75, postpaid.

HARDY—BLOOMS OUTDOORS

The great improvement in large blooming Mum varieties enables us to offer garden varieties that compare equally in size with greenhouse varieties and the range of color is much wider. These world famous varieties that we offer produce huge exhibition blooms and should be disbudded to one bloom per stem, having several stems on each plant.

These are all 1952 introductions, having disease-resistant foliage and early blooms of medium height. The blooms are huge, of fine texture and will provide beautiful long-stemmed bouquets throughout the fall months. Flowers are up to 5 inches and are not the small 2-inch flowers you are accustomed to seeing on ordinary Mum varieties.

ABLAZE. 2273. Huge cactus-like blooms of deep red. A plant of medium height with dark green foliage. Blooms mid-October.

APPLE BLOSSOM. 2274. Lovely incurved blooms of shell pink. Very free flowering plants of medium height. Blooms mid-September.

BALCOMBE YELLOW. 2276. Large, bright yellow incurving blooms on tall plants. Dark green foliage. Blooms late September.

CRIMSON MAGIC. 2278. Full, deep reflexing blooms of dark velvety crimson. The large, 6-inch blooms are produced in mid-October.

DISPLAY. 2280. Large blooms of bright scarlet bronze. Strong, sturdy stems; free flowering. Blooms early October.

DOREEN MONTE. 2282. Extremely double incurving blooms of bright rose pink. Tall upright plant. Blooms early October.

NEW DAWN. 2284. Unusually large reflexing blooms of shell pink. Vigorous, upright plants. Blooms early October.

PRESENT. 2286. Huge fluffy blooms of pure white. Plant of medium height with excellent foliage. Blooms mid-September.

ROMANCE. 2288. Very double reflexing blooms of warm pink with salmon shadings. Blooms early October.

SALAMANDER. 2290. Large bright red full blooms which are borne on long stems with dark green foliage. Blooms mid-October.

PACIFIC HYBRID DELPHINIUM

Giant

The elegance and beauty of this marvelous new strain of Hybrid Delphinium almost defies description. Great stalks, 3 to 5 feet tall, bear enormous flower spikes heavily laden with individual flowers. Each flower is exceptionally large, 2 to 3 inches across, and perfectly formed. The blooms are single, semi-double and double. The colors are exquisite. Plant them in groups of four for best effect.

BLACK KNIGHT. 2122. Large flowers of the darkest royal violet shades. White bee. The individual blooms are beautifully formed and are of a remarkably rich color.

CAMELIARD. 2126. Clear, soft lavender with white bee. Very large, round florets of perfect form.

GALAHAD. 2124. Giant glistening pure white flowers with white bees. Florets often reach three inches in diameter and are heavily textured. Blooms are carried on 5- to 6-foot stems.

GUINEVERE. 2129. Light pink-lavender self with white bee. Excellent branching habits; beautiful large blooms. Long graceful spikes.

SUMMER SKIES. 2128. As beautiful as the name indicates. The blue is the blue of a summer sky and the white bees represent the fleecy clouds. The large individual florets are beautifully formed and carried on tall stiff stems.

45c each; 2 for 85c; 4 for \$1.65; 8 for \$3.10, postpaid.

Emlong's Hardy CARNATIONS

CARNATION BARGAIN 2121X

10
BEAUTIFUL CARNA-
TION PLANTS,
Assorted colors
for only

\$2.65
Postpaid

The lovely perennial Carnation Grenadin comes in 4 beautiful colors:

- 2110. Golden Sun, golden yellow.
- 2118. Triumph, deep pink.
- 2114. Purity, pure white.
- 2112. Ruby, deep red.

For a riot of color and an abundance of flowers all summer and at intervals thereafter, plant just a few plants in solid beds, borders or in groups. Flowers come single, semi-double, and double on the same plant at different times of the season. These hardy Carnations are fast becoming the most popular and useful flower in the garden because they are lovely in the garden and fine for cutting. Grow 18 to 20 inches tall. The flowers are delightfully fragrant. Carnations grow in ordinary light, well-drained soil. Plant 12 inches apart in early spring. Plants are hardy, but should be protected lightly during the winter to prevent alternate freezing and thawing. **40c each; 2 for 70c; 4 for \$1.35, postpaid.**

Blue Hydrangea

BLUE HYDRANGEA

(Nikko) 1374. This is the new hardy strain of Blue Hydrangea, which has immense flower heads 6-12 inches across lasting for many weeks. In ordinary soil the flowers are pink, but in an acid soil they are blue. A deeper blue color can be maintained if a small amount of aluminum Sulphate is applied once or twice during the growing season. Blue Hydrangea grows best in partial shade, growing 3-4 feet tall making a well rounded shrub just as wide. Where winter temperature goes below zero, protection should be given by mounding up 10 to 12 inches of soil around the plant before severe freezing weather. Our plants are well rooted **2-yr. field-grown plants** (not greenhouse grown). **\$1.75 each; 2 for \$3.25, postpaid.**

MT. SHASTA DAISY

2034. Beautiful new double-flowering Daisy that will add distinction to your garden. Pure white blooms with high tufted center and a double row of overlapping guard petals which enhances the beauty of this fine double Daisy. Flowers are produced in abundance from spring until freezing weather. Flowers come singly on tough, wiry 24-inch stems. Always showy in mass plantings and equally desirable as cut flowers. Plants are very healthy, vigorous and a great improvement over older varieties. **60c each; 3 for \$1.75; 5 for \$2.65, postpaid.**

Creeping ... Dainty COLORFUL **phlox** Phlox Subulata

Masses of dainty, colorful flowers completely cover the plants all through early spring, hiding the attractive moss-like evergreen foliage. A perfect plant for terraces, banks, borders, walk edgings, the rockery; also invaluable for carpeting bare spots. Grows scarcely 4 inches tall. The moss-like foliage stays green all winter. Hardy, easy to grow. Plant 1 foot apart each way to make a dense ground cover in a short time. Soil should be dry and sandy and not too rich. Should be planted in full sun. It is one of the most beautiful of the low creeping plants. Your choice of colors:

- 2180. Alba, pure white.
- 2182. Laphami, beautiful lilac blue.
- 2184. Moerheimi, charming pink.
- 2186. Atropurpurea, deep carmine red.

Emblong's Hardy Large Flowering CLEMATIS

Without a doubt one of the most attractive and beautiful flowering vines. There is a profusion of gorgeous blooms in early summer followed by some blossoms throughout fall. The large flowers make an exquisite contrast against the rich dark green foliage. Unexcelled for porch and trellis planting.

JACKMANI. 1502. Bears a great profusion of large purple blooms, making a striking contrast against the foliage. One of the loveliest vines available.

BARON VIELLARD. 1504. A handsome, hardy climber bearing a profusion of pink blooms throughout the season.

MAD LE COULTRE. 1506. A strong vigorous variety producing glistening pure white flowers.

VILLE DE LYON. 1508. Showy red blooms are produced in great masses; very striking.

GARDENIA VEITCHI

(CAPE JASMINE)

2070. Enjoy this lovely flower indoors or out. An excellent shrub to plant on your terrace, in your sunroom or in pots and enjoy its exotic beauty all year. They produce an abundance of attractive blooms that are supreme. The blossoms are large, creamy white and are surrounded by rich foliage of thick, evergreen leaves. One of the most popular and fashion-able flowers — a flower of romance. Very attractive even when not in bloom. Unequalled for its rich perfume; unexcelled for corsages or when worn in the hair. This plant will add charm and attractiveness to your home all year round. **\$1.10 each; 2 for \$2.10, postpaid.**

Gardenia Veitchi

← ALTHEA Rose of Sharon

An old-time favorite, but worthy of a place in every modern garden. A very pretty, tall growing shrub with large, double rosette flowers and fancy green leaves. Blooms from late summer through the fall months when other shrubs have finished blooming. Flowers are charmingly colored, brilliant and gay, and contrast beautifully with the dark green foliage. A very popular shrub for planting in the border, and well suited for screens or single specimens. Grows 6 to 8 feet tall; erect and well-shaped. Here is a real contribution to the summer flowering shrubs. **Your choice of colors: 1306, Pink; 1308, Purple; 1310, Red; 1312, White.**

FOXGLOVES

2046. Beautiful "wedding-bell" flowers in a wide range of solid and two-tone colors with dotted throats. Flower heads are 2 to 3 feet long, thickly clustered with large bell-shaped blossoms. For continuous bloom nearly all summer cut off old stems when flowers fade. A mass planting in beds or border will produce a truly charming effect. They may also be planted for a shady border or a woodland garden.

45c each; 3 for \$1.25, postpaid.

VIOLAS

2084. Often called Hardy Pansies, these enchanting little blossoms appeal to all who love flowers. Plant grows 6 to 8 inches tall; thrives anywhere and blooms from early spring until frost. Perfect for low borders and masses of color in the rock garden. Assorted colors.

45c each; 3 for \$1.25, postpaid.

DECORATIVE OUTDOOR FERNS

Especially good in those cool, shady, problem spots. Ferns do well on the north side of the house or under trees — very useful for these cool, shady spots where grass and flowers won't do well. Excellent for naturalizing and are not bothered by tree roots.

OSTRICH FERN. 2580. A luxuriant, very sturdy plant for shady or partially shady spot. Very attractive.

MAIDEN HAIR. 2581. Thrives in shady spots. Height 1 ft.

SENSITIVE. 2582. Thrives in sun or shade. Height 1 ft.

LADY. 2583. Finely cut fronds, grows well in moist, rich soil, can be planted in either sun or shade.

60c each; 3 for \$1.10; 4 for \$1.95, postpaid.

CAMPANULA

Beautiful new perennial; tall, erect growing. Unique cup-and-saucer-shaped flowers are produced freely during May and June. Finely formed foliage and large flowers are very showy for background planting. Colors: Blue, 2024; Pink, 2028; White, 2026. 45c each; 3 for \$1.25, postpaid.

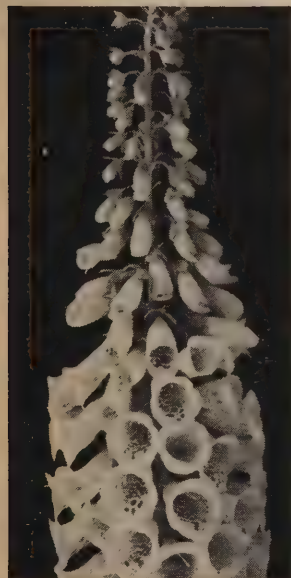

GEUM

Splendid plant for hardy border. Blooms freely from May through October. Large blooms 1½ to 3 inches across with large waxy petals, borne on 12 to 18-inch stems. Very attractive foliage.

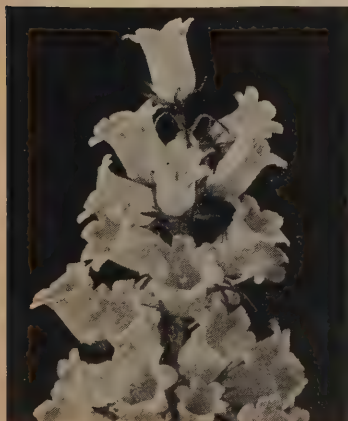

MRS. BRADSHAW. 2056. Fiery-red, double blooms.

LADY STRATHEDEN. 2054. Rich golden yellow flowers.

Your Choice: 50c each; 3 for \$1.35, postpaid.

PERENNIALS

PINK LYTHRUM

Pink Lythrum

2066. An excellent summer flowering perennial. The plant grows to a height of 3 feet with flower spikes 12 to 18 inches long, making a very showy display. Each plant bears dozens of spikes covered with bright pink flowers held proudly above the dense foliage through late summer. Fine for shaded areas and around pools. It does well in dry weather, but comes into perfection in a moist location. Very substantial and easy to grow; will thrive in ordinary garden soil. Plants very hardy and very effective in bouquets. **60c each; 3 for \$1.65, postpaid.**

ORANGE

BUTTERFLY PLANT

2068. (Asclepias.) Sweet-scented, 3 to 4 inch flat clusters of the brightest orange flowers you have ever seen. Attracts butterflies. Dwarf growing; very hardy, withstands severe winters and hottest summers. Very free flowering from July to fall. A startlingly vivid and splendid color addition to the perennial border and for growing in front of shrubbery. Lovely for cutting. **45c each; 3 for \$1.25, postpaid.**

WHITE FEVERFEW

White Feverfew

2042. An attractive, low growing plant. It has finely divided leaves and small, double white flowers on stems 12 to 18 inches in height. Bears a profusion of bloom throughout the summer. Will grow freely in ordinary well-drained soil. Plant one foot apart in sunny border. A most effective display when planted in a border and valuable as a summer cut flower. **45c each; 3 for \$1.25, postpaid.**

DOUBLE HOLLYHOCKS

The hollyhock is one of the oldest flowers in cultivation and is today an inhabitant of almost every garden. It is a lovely flower when well grown, and many new sorts are being offered, which promise to maintain their popularity for years to come. Magnificent double flowers are borne on long, graceful spikes about 5 feet tall. Blooms from mid-summer until late fall. Hardy, easy to grow. We have a complete range of shades to add a riot of color to your back-ground plantings. Colors: **2299, Newport Pink; 2292, Chamois; 2298, Lilac Beauty; 2290, Maroon; 2294, Scarlet; 2296, Yellow.** **45c each; 3 for \$1.25; 6 for \$1.95, postpaid.**

BLUEBIRD VERONICA

2082. The aristocrat of the perennials. The heavy flower spikes are completely studded with intense, lustrous deep blue blossoms. Blooms freely, providing a fine display from mid-summer through fall. Fine for cutting. This beautiful hardy perennial is indispensable for the perennial border. **50c each; 3 for \$1.35, postpaid.**

SCABIOSA

(Pincushion Flower)

2078. Large, showy, blue flowers. Blooms are produced very freely from June until September. Plants grow 18 to 24 inches in height. These showy plants are excellent for the perennial border and are very highly regarded for cutting. Gives best results when planted in groups of three or more. **45c each; 3 for \$1.25, postpaid.**

STOKESIA ASTER BLUE MOON

2080. Immense, 5 to 6 inch, flowers of exquisite light blue borne on upright, stiff stems 12 to 18 inches in height. It is of easy culture and flowers throughout the summer and autumn until stopped by a hard frost. Easily grown in sun or partial shade. An excellent plant for forefront of the border. Vigorous growing and free flowering. **45c each; 3 for \$1.25, postpaid.**

TREE HYDRANGEA

1236. The finest and choicest of all trees offered. The small tree, not exceeding 8 to 10 feet at maturity, has large panicles of flowers which are white when first appearing in early summer, changing to shades of pink and bronze as the season progresses. They are hardy, long-lived and disease resistant. Grow well in any climate. Need very little care. A most handsome tree for ornamental planting, as a specimen, or in the foreground of high massed shrubs. The sparkle and beauty of a Tree Hydrangea in bloom is beyond description.

	Each	2	4
3-4 ft. trees....	\$3.50	\$6.75	\$12.95

Tree Hydrangea

THUNDERCLOUD

(Purple Leaved Plum)

1288. We consider this new variety an improvement over the more common types, particularly as to color. Thousands of pink single flowers appear in spring followed by "purple" foliage. The foliage is a brighter, richer purple, which holds up throughout the season, providing a pleasing contrast among other trees and shrubs. Low-growing, compact habit; very ornamental and useful for lawn specimen and among shrubs. Makes a fine contrast plant and helps add variety and color to the garden. Ultimate height about 10 ft. Occasional trimming will keep it in desired shape.

	Each	2	4
2-3 ft. branched trees..	\$1.65	\$3.20	\$6.20
3-4 ft. branched trees..	1.95	3.80	7.50

TREE ALTHEA

A plant that is very similar to the shrub form but has been grown and cultivated with a single stem so it assumes the shape of a small tree. Gay, brightly colored blooms are produced from July until frost. Flowers are large and flaring, contrasting beautifully with the dark green foliage. Very free flowering. A most handsome small tree for ornamental planting, as a specimen, or in the foreground of high massed shrubs. Specify color wanted. 1251, Red; 1250, Pink; 1249, Blue.

	Each	2	4
3-4 ft. trees.....	\$1.50	\$2.95	\$5.75

Rose Tree of China

ROSE TREE of CHINA

1284. (Prunus Triloba.) A handsome, old fashioned shrub-like tree that should be included in every garden. Very double rose-like flowers hug every branchlet and twig so heavily that no wood is visible in early May before the leaves come out. Blooms are delightfully double and very bright pink. Beautiful, hardy flowering plum which grows to a height of about 8 feet becoming a rare specimen.

	Each	2	4
2-3 ft. branched trees.....	\$1.95	\$3.75	\$7.25
3-4 ft. branched trees.....	2.50	4.75	8.95

Kwanzan Flowering Cherry

KWANZAN FLOWERING CHERRY

1252. The large, double pink flowers of this variety are very showy and attractive in early spring. Very large blooms, up to 2 inches in diameter with about 30 large petals, of bright rosy-pink appear, followed by dark green foliage. Millions of visitors to Washington, D.C. have marveled at the beauty of these Flowering Cherry Trees. Its vigorous, quick-growing habit together with its beautiful flowers, have made this a very popular double flowering variety. Trees are very hardy and withstand temperatures of 20 degrees below zero. As a specimen or border tree it is unexcelled.

	Each	2
4 to 5 ft. trees.....	\$3.75	\$7.25

JAPANESE WEeping CHERRY

1253. One of the most beautiful flowering trees. Drooping branches grow from the top of the slender main trunk in a way that vaguely resembles the frame of an umbrella. In spring, the tree attracts much attention when the branches are covered with delicate clusters of dainty pink flowers. Sometimes used in pairs to accent entrances. Also planted singly, in gardens or where attention needs to be focused. A feature of many landscape designs. Grows well in any good garden soil.

	Each	2
5 to 6 ft. trees.....	\$7.50	\$14.50

Japanese Weeping Cherry

Tree Althea

Sensational RED LEAF PEACH

1278. Bright red foliage appears early in the spring, changing gradually to deep maroon towards fall. Fragrant, deep-rose blossoms contrast beautifully with the colorful foliage. This sensational tree produces a full crop of small, perfectly round, edible Peaches, about 1½ inches in diameter. The Peaches are especially fine for pickling—flesh is white and has a delicious, sweet flavor. Fruits have an over-all red color, lightly spotted. Ripen quite late. Try a planting this spring.

	Each	2	4
2-3 ft. branched.....	\$1.00	\$1.95	\$3.80
3-4 ft. branched.....	1.50	2.75	5.25
4-5 ft. branched.....	1.95	3.75	7.25

DOUBLE RED FLOWERING PEACH

1276. One of the most beautiful ornamental trees. Symmetrical spreading tree growing to a height of about 20 feet. Thousands of miniature Roses, which appear at blooming time in May, completely cover the trees before the glossy green leaves appear. A tree in full bloom presents a vision of loveliness against the new green of an early spring lawn. Trees are rapid growing. Ideal as a specimen plant or fine for group plantings.

	Each	2	4
3 to 4 ft. branched.....	1.50	2.75	5.25
4 to 5 ft. branched.....	1.95	3.75	7.25

Red Leaf Peach

JAPANESE TREE LILAC

1387. The tree form of the beautiful Lilac. Trees grow upright and are hardy for they come from a very cold climate. In June and July large, long panicles of fragrant ivory-white flowers appear making a very attractive show. Keep lower branches cut off for a well developed trunk. Tree grows 12 to 14 feet tall at maturity. The tree is small, bushy and oval in shape, is well suited for use in shrub borders, enjoys a minimum of care and thrives under average garden conditions. A very beautiful and showy ornamental tree.

	Each	2
2 to 3 ft. tree.....	\$2.50	\$4.75

SUGAR MAPLE

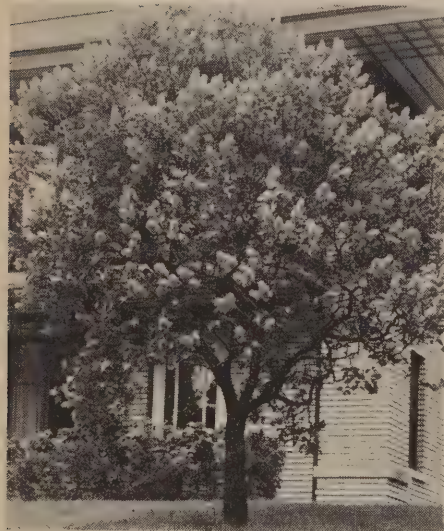

1246. A picturesque tree in all seasons. When young, it often grows with an oval head, later becoming pyramidal or bell-shaped. Most colorful in fall when its dense leaves are brilliant yellow, orange and scarlet. Does well in either full sun or shade. One of the best trees for street planting or for a lawn specimen where good form and shade are needed. Approximate height at maturity is 50 to 60 feet.

	Each	2
4-5 ft. trees	\$3.25	\$6.25

PIN OAK

1228. Fastest growing of all the Oaks. Actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. It grows in symmetrical, pyramidal form to a height of from 75 to 90 feet at maturity. The rich foliage is deeply cut and colors to a glorious coppery red in the fall. A sturdy, rugged grower, adapting itself to all locations. For street and lawn planting it has no equal. A tree planted now will be a great pleasure for many generations to come.

	Each	2
4 to 5 ft. branched trees.....	\$4.25	\$8.25

MOUNTAIN ASH

1222. A most gorgeous ornamental shade tree that grows to a height of 40 feet forming a dense, thick head. In spring, the tree is covered with white flowers in flat-topped clusters followed in late summer by massive clusters of brilliant orange berries which literally bend the branches with their load. Berries remain throughout summer and into winter, adding to the attractiveness of this fine tree. The narrow leaves, which are formed in pinnate shape and arranged on frond-like branches, are a striking contrast to the flashy berries and smooth brown bark. Hardy, does well in northern states. Will thrive in any soil with very little care. If you desire a sparkling and colorful display in your yard in early spring right through late fall and winter, plant a tree now!

Mountain Ash

FAASSEN BLACK MAPLE

1210. This unusual tree will afford a definite contrast to your other plantings of shade trees that passers-by will stop and gaze. The foliage is of excellent texture; being deep purple in color when it first appears, but becomes much darker as the season progresses until it is almost black in color. The contrast is breathtaking. Trees are perfectly hardy and retain their magnificent leaf color throughout the entire summer. The shape of the tree is excellent — compact and will grow into a fine shade tree. A superb tree for lawn, small or large, street trees or specimens for contrast among other trees. Complete your lawn with one or more of these outstanding trees for refreshing shade as well as colorful beauty. Supply limited. Order today.

Sensational MORAINE LOCUST

(Plant Pat. No. 836)

FAST GROWING SHADE TREE

1220. It gives us great pleasure to offer this sensational, new shade tree, because we believe the Moraine Locust so perfectly fills the needs of today. For the many new homes which have no shade trees whatsoever, it will provide good shade quicker than any tree we know of, and is superior in many ways to other fast growing trees, and it is easy to transplant.

Grows Anywhere — Long-Lived — Seedless

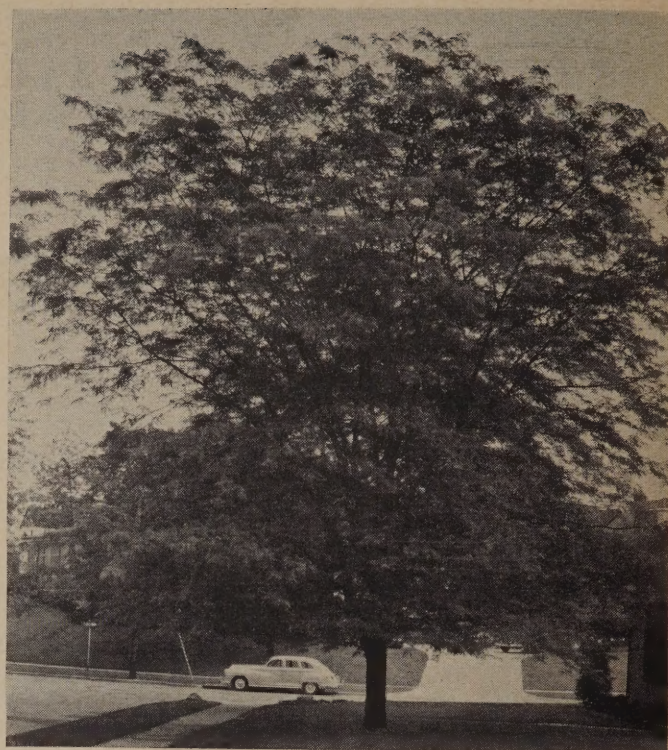

The Moraine Locust is a hardy, drought-resistant tree that grows successfully on a wide range of soils. It will withstand the same extremes in temperature as the common Honey Locust and is as long-lived. Because the Moraine Locust is sterile, there are no unsightly seed pods to clutter up the lawn; non-fruiting habit also makes for better foliage.

Beneficial to Lawns

The Moraine Locust forms a large, beautifully shaped head, similar in appearance to the American Elm. The finely cut foliage allows enough light to filter through to promote excellent growth of lawns, yet provides shade dense enough to discourage growth of crabgrass. Whether your need is for good shade quickly, or to replace undesirable trees, we believe you will agree the Moraine Locust is the answer. Try a planting this spring.

5 to 6 ft. Whips, \$5.00 each; 2 for \$9.80; 4 for \$19.20.

5 to 6 ft. Branched, \$6.00 each; 2 for \$11.80; 4 for \$23.20.

Moraine Locust

Silver Queen Maple

(Pat. Pending)

No Seed Pods—Fast Growing—Hybrid Excellent Shade in a Very Short Time

1238. We are pleased to have the privilege of introducing this sensational hybrid Silver Maple to our customers.

As you know the Silver Maple has been an excellent fast growing shade tree for many years; its only fault was the production and shedding of seed pods that were such a nuisance. Consequently, Mr. Henry Kleine of Newport, Michigan, hybridized a maple for us that has developed into a wonderful fast growing, seedless tree.

The Silver Queen Maple is a drought resistant tree, hardy in all sections, and is adaptable to a wide range of soil types. It is a beautiful tree, has interesting cut leaf type foliage and is pyramidal in growth habit.

The rapid growth of this maple is the answer to the problem of our customers that want shade for their homes in a short time. It certainly won't be necessary to wait a generation for shade if you plant the Silver Queen.

We at Emlong's know that fast growing shade trees are desired by many new home owners throughout the United States and to many the cost of planting a large shade tree would be prohibitive. Silver Queen is the answer to this; lots of shade in a short time at a reasonable price. The supply is limited, order early.

SUNBURST LOCUST

(Plant Pat. No. 1313) 1294. Now for the first time we can offer the newest of shade trees — **New Sunburst Thornless Locust**. So called because 8 to 10 inches of the branch tips are covered with brilliant golden bronze foliage. The trees are more disease resistant than the common Locust. It has excellent branching habits; it is symmetrical and broadly pyramidal. Hardy, long-lived trees that will grow in a wide range of soil and climate. Extremely beautiful planted as a specimen in your garden or lawn. One tree will dominate your garden — yes, even your neighborhood. So be the first to have this beautiful new tree . . . Order today.

REDBUD ↑
(*Cercis Canadensis*)

1280. Also known as Judas-tree. In early spring, large clusters of glowing rose flowers cover every branch and twig. After the spring blooming season, large, healthy, heart-shaped leaves appear. A graceful, small ornamental shade tree growing to a height of about 20 feet. It grows with very little care. Lovely for lawn specimens and in shrub borders, producing a breath-taking display every spring. Extremely decorative and highly recommended from every standpoint, since it is adaptable to a wide variety of soils. Most attractive throughout the season.

CUT LEAF WEEPING BIRCH

Picturesque Summer and Winter ↓

1202. The aristocrat of all Birch trees. Graceful, pendulous branches, finely-cut silvery green foliage and shimmering white bark make this a tree of great beauty the year around. Unmatched by any other ornamental tree. Grass will grow right up to the trunk. Needs no elaborate soil preparation, but prefers a moist location and a sunny spot. The white bark comes a year or two after planting. A single specimen or a group will add distinction to your lawn.

WISTERIA TREE

**Increases in Beauty
Year after Year**

No lovelier sight can be imagined than a tree Wisteria in full bloom. Bears great profusions of large racemes of charming, pea-shaped flowers somewhat resembling a bunch of grapes in size and form. Flowers are produced by the hundreds and completely cover the tree during May. When in bloom, the tree is a thing of sheer beauty. Once planted, the tree increases in beauty each season. On the lawn, the tree develops into a beautiful specimen and lives for generations. Easy to grow from coast to coast excepting in the very coldest states. Trees grow 6 to 8 feet tall at maturity. (Balled in Peat.) Choice of colors: **1292, Purple** (the most popular color), **1290, Pink** (Very rare and unusually beautiful).

CRIMSON KING MAPLE

Truly a King of the Ornamental Trees

(Plant Pat. No. 735) 1208. Truly the best Red Maple grown. In the spring, the foliage is a rich deep purple red which is carried through the entire season. Unquestionably, Crimson King is a superb tree for single specimens, along streets and driveways, and every landscape purpose; providing striking contrast among other trees. Fine for city planting, not harmed by smoke, gasses, dust. Sport of the well-known Norway Maple. Habits and growth similar to Norway. Crimson King is hardy and reaches 50 feet at maturity. It will live for many generations, becoming more attractive with each passing year. For color accent all summer, plant Crimson King.

All trees we send are one year old tops and three year old roots. They start branching the first season.

FLOWERING DOGWOOD

A Vision of Loveliness in All Seasons

RED FLOWERING

1265. A sensational new Red Dogwood. This variety stands out among other ornamental trees as being one of the most desirable for its beauty and earliness of bloom. Showy rose colored blossoms completely cover the tree in early spring followed by dark green foliage in summer changing to gorgeous reds in the fall. Bright red fruit, produced in small clusters, in September and October. The spreading branches grow horizontally and slightly upward from the trunk producing conspicuous flowers, often 3 to 3½ inches in diameter. A beautiful tree for lawn or shrub border specimen, and is valuable for naturalizing where its native woods habitat can be copied. Dogwood thrives in any fertile soil but prefers a somewhat shaded location. A combination of red flowering with white makes a beautiful grouping. Grows 8 to 10 feet tall.

Prices:	Each	2	4
2-3 ft.	\$4.25	\$ 7.75	\$14.75
3-4 ft.	5.75	10.75	20.75

PINK FLOWERING

1266. *Cornus Florida Rubra*. This charming, brilliant spring-flowering tree possesses a large measure of attractiveness throughout the entire year. A tree in full bloom is a magnificent sight. Showy pink blossoms appear in early spring followed by rich, dark green foliage changing to gorgeous red in fall. Grows 8 to 10 feet tall. Does well in shade.

Prices:	Each	2	4
2-3 ft.	\$3.25	\$5.95	\$11.50
3-4 ft.	4.75	8.95	17.50

WHITE FLOWERING

1268. *Cornus Florida*. Immense amounts of single flowers of creamy white which change to white cover the tree in early spring followed by red fruits. Foliage turns red in fall. One of the most delicate-appearing of all our native trees and a splendid specimen tree. When in bloom, the tree is literally a billowing cloud. 8 to 10 feet.

Prices:	Each	2	4
2-3 ft.	\$1.95	\$3.75	\$6.75
3-4 ft.	2.50	4.75	8.75
